## DISCLAIMER

### Contents

The content and images on the MAN Genuine Accessories websites are provided for information purposes only. MAN accepts no liability for the information provided being up to date, correct and complete. MAN reserves the right to make engineering design and/or commercial changes at any time within the framework of continuous product maintenance and further development without prior notice. Illustrations may also include special equipment that is not part of the standard scope of delivery.

### Availability per country

The availability per country can be found in the country availability matrix in the MAN Service Portal.

### Application

MAN Genuine Accessories may not be used for purposes other than those specified without written approval. Fitting and application must comply with the regulations of the respective country of use. National rules and regulations must be observed. Due to national or EU laws and regulations, some functions or accessories are not available in all countries. Before use, it is the buyer's responsibility to check whether the accessories are approved and may be used in the respective country in which the vehicle is operated.

### Liability for defects

MAN Truck & Bus SE grants a 24-month liability on MAN Genuine Accessories for material defects in accordance with the MTB Terms and Conditions of Sale and Delivery. Accordingly, liability for defects is excluded in particular in the case of:

- Damage caused by improper transport or fitting by customers or third parties.
- Fault(s) due to incorrect operation or damage by the customer.
- Wear due to excessive use
- Modifications to the accessory

**MAN Genuine Accessories offer you parts that you can install in your truck or van to give it your personal touch.**

MAN Genuine Accessories not only enable personalisation of the workplace, they also enable a company to increase efficiency. The parts ensure a comfortable and safe working environment tailored to your individual needs. With MAN Genuine Accessories, you can optimise your operating costs.

The different variants of the MAN Genuine Accessories are custom-built for the respective vehicle type. The parts are labelled with the designations TGS, TGX, TGM, TGL or TGE if required. This allows you to identify immediately whether the part is available for your requirements.

# MAN GENUINE ACCESSORIES

## Benefits at a glance

### Save time and money

Quick and easy to fit because they have been specially developed for your MAN to the highest quality standard.

### Lower operating costs

Optimise and simplify correct operation of your MAN.

### Save a lot of trouble

Enhance the safety of your MAN on the road with selected accessories.

### Improve the appearance and reputation of your company

Stylish products for your MAN that your customers will also like.

### More enjoyment behind the wheel

Comfort that will increase driver satisfaction and performance.

### Conveniently accessible

As with all MAN Genuine Parts, available for order from your MAN dealer.

# COMFORT

## Feel better, enjoy more relaxed driving.

You spend a lot of time at your work place – often including even part of your free time. Providing the greatest possible comfort is therefore a must. MAN Genuine Accessories offer some useful and practical extras that make driving and breaks more enjoyable. We want to make you as comfortable as possible. Your comfort is our quality standard.

# COMFORT

## Seat covers

MAN Genuine seat covers offer the greatest possible comfort thanks to the best fit and first-class “Made in Germany” workmanship. High-quality materials guarantee not only easy cleaning and care but also wear resistance and the best possible protection of MAN Genuine seats. It goes without saying that simple and easy fitting was taken into account when developing the covers. The quality is reflected in their pleasing appearance. Choose from three exclusive designs ① PREMIUM, ② SPORTIVE and ③ ROBUST.

1

### PREMIUM seat cover

This MAN Genuine seat cover in genuine leather brings luxury and prestige to the cab. As well as having a classic and luxurious design, the premium seat cover is also suitable for climate-controlled seat functions, thanks to the micro-perforation in the seat and backrest area. The leather is of the highest quality and particularly easy to clean, hard-wearing and durable.

## All-season floor mat TGE

MAN Genuine all-season mats protect your vehicle from moisture and dirt. They are made to fit perfectly, are non-slip and can be cleaned easily. Furthermore, the floor mats are 100% recyclable, very robust and durable. The material makes the all-weather mats significantly lighter than conventional floor mats. One set consists of three mats to protect the front footwell and centre tunnel.

Item number	Designation
65.62860-6001	All-season mats, front, left-hand drive vehicle
65.62860-6002	All-season mats, front, right-hand drive vehicle
65.62860-6003	All-season mats, rear, crew cab

Suitable for
TGE

## Velour floor mat TGE

These floor mats, made of high-quality, hard-wearing velour and branded with the MAN lion, create a great look in the cab. They impress with their perfect fit. The button fasteners included in the set ensure a secure hold. This means that they optimally protect the footwell of your TGE from dirt and are easy to clean.

The mats for the front footwell can be ordered as a set. A single mat for the rear seating area of crew cabs is also available.

Item number	Designation
K3.62860-6020	LHD Premium velour set (lion), front
K3.62860-6021	RHD Premium velour set (lion), front
K3.62860-0036	Premium velour crew cab, rear

Suitable for
TGE

# COMFORT

## Fabric mat for engine hump

The custom-fitting fabric mat protects the engine hump and provides additional floor insulation. With colours that are matched to the interior and a soft material, they make the cab more comfortable and homely. The mat is also durable and easy to keep clean.

### Properties

Colour variants: Grey, beige

Material: Velour

Item number	Designation	Suitable for
81.62861-0180	Fabric mat, engine hump for TipMatic, beige, 966 mm x 514 mm	GN, GM, GX cabs
81.62861-0163	Fabric mat, engine hump for TipMatic, grey, 966 mm x 514 mm	
81.62861-0179	Fabric mat, engine hump for manual gearshift, beige, 676 mm x 514 mm	
81.62861-0162	Fabric mat, engine hump for manual gearshift, grey, 676 mm x 514 mm

81.62861-0267	Fabric mat, engine hump for TipMatic, grey, 733 mm x 538 mm	
81.62861-0269	Fabric mat, engine hump for manual gearshift, beige, 496 mm x 538 mm	
81.62861-0266	Fabric mat, engine hump for manual gearshift, grey, 496 mm x 538 mm	

# COMFORT

## Roof Top Air Conditioners

With MAN Genuine roof top air conditioner, the truck driver can spend his rest periods recuperating in the cab without having to run the engine for hours consuming large quantities of fuel. Having a rested driver also contributes to increased safety. Thanks to their highly efficient technology, the systems cool quickly and reliably for up to twelve hours with low operating costs. The compact, battery-powered roof-mounted air-conditioning systems for trucks are easy to fit in the existing roof hatch.

### **Note**

Equipping the vehicle with 210-Ah Super Longlife (AGM) batteries with the more powerful alternator Long-life Eco is recommended. The preset undervoltage protection of the system must not be changed. To avoid deep discharge, we recommend that you start the vehicle after prolonged use of the system before using another current consumer. If the roof top air conditioner changes the overall height of the vehicle, this must be noted in the vehicle documentation. National regulations take precedence over technically permissible dimensions and weights if they limit the technically permissible dimensions and weights.

Switch off the roof top air conditioner before tilting the cab for maintenance purposes.  
Observe further safety instructions for roof top air conditioners and washing installations!  
Fitting by an MAN service outlet is recommended. Ask your MAN service outlet for detailed information.

With four different versions, there is the right solution for every requirement:

- 1 Roof Top Air Conditioner Cooltronic G2.5
- 2 Roof Top Air Conditioner RTX 1000
- 3 Roof Top Air Conditioner RTX 2000
- 4 Roof Top and Rear Wall Air Conditioner SPX 1200

# COMFORT

## Roof Top Air Conditioners

### Roof Top Air Conditioner Cooltronic G2.5

MAN Genuine roof top air conditioner systems enable relaxing breaks and rest periods in the cab under optimal conditions. They also increase the alertness of the driver, thus ensuring greater safety on the road. The Cooltronic G2.5 systems are self-contained air-conditioning systems with electric compressors and a closed circuit that automatically adjust their cooling output to the lowest possible power consumption.

Thanks to the special two-part design, the roof-mounted air-conditioning system for trucks can be fitted beneath the roof spoiler, making it particularly suitable for MAN TGX vehicles with GM or XLX cab (medium height) and roof spoiler. The MAN Genuine Roof Top Air Conditioner Cooltronic G2.5 can also be used with all other MAN TG vehicles with a long cab.

#### Properties

920 W cooling output

Digital temperature gauge (in °C and °F)

with remote control

Five fan levels

Dual battery protection

ADR compliant

MAN-specific assembly kit

Two-part design

Item number	Designation	Suitable for
K3.61900-6004	Roof Top Air Conditioner Cooltronic G2.5 without installation kit	For all TG models with a long cab
K3.61941-6001	Assembly kit Cooltronic for TG3, beige	For all TG models with a long cab from MY 2020
K3.61941-6000	Assembly kit Cooltronic for TG2, grey	For all TG models with a long cab up to MY 2019

# COMFORT

## Roof Top Air Conditioners

2

### Roof Top Air Conditioner RTX 1000

The roof top air conditioner is designed for relaxing rest periods in stationary operation. Thanks to its highly efficient technology, it cools quickly and reliably for up to twelve hours. The compact, battery-powered roof-mounted air-conditioning system for trucks is easy to fit in the existing roof hatch.

#### Properties

1,200 W cooling output	ADR compliant
Highly efficient: only 8 A power consumption in Eco mode	MAN-specific assembly kit
Autonomous, battery-powered roof-mounted parking air-conditioning system	Precise temperature control
All components integrated into a single roof unit	Boost cooling mode for fast cooling
Roof top air conditioner suitable for ambient temperatures from 5°C to 52°C	Up to twelve hours of operation with maximum cooling output

Item number	Designation	Suitable for
K3.61900-6002	Roof top air conditioner RTX 1000	All TG modells with roof hatch Not for: TGL, TGM, with C cab, TGL, TGM, TGS with TM (LX) cab with roof spoiler without aero package TGX with GM (XLX) cab with roof spoiler

# COMFORT

## Roof Top Air Conditioners

### Roof Top Air Conditioner RTX 2000

The roof top air conditioner is designed for relaxing rest periods in stationary operation. Thanks to its highly efficient technology, it cools quickly and reliably for up to six hours and longer. The compact, battery-powered roof-mounted air-conditioning system for trucks is easy to fit in the existing roof hatch.

#### Properties

2,000 W cooling output	ADR compliant
Highly efficient: only 8 A power consumption in Eco mode	MAN-specific assembly kit
Autonomous, battery-powered roof-mounted parking air-conditioning system	Precise temperature control
	Boost cooling mode for fast cooling
All components integrated into a single roof unit	Up to six hours of operation with maximum cooling output
Roof top air conditioner suitable for ambient temperatures from 5°C to 52°C	Up to twelve hours of operation at Central European temperatures

Item number	Designation	Suitable for
K3.61900-6001	Roof top air conditioner RTX 2000	All TG models with roof hatch Not for: TGL, TGM, with C cab, TGL, TGM, TGS with TM (LX) cab with roof spoiler without aero package TGX with GM (XLX) cab with roof spoiler

# COMFORT

## Roof Top Air Conditioners

4

### Roof Top and Rear Wall Air Conditioner SPX 1200

The roof top air conditioner is designed for relaxing rest periods in stationary operation. Thanks to its efficient technology, it cools quickly and reliably. The very flat roof unit saves space and hardly influences the overall height of the roof. It is therefore also suitable for TGX vehicles with GM or XLX cab and roof spoiler.

The evaporator unit SPX 1200T (in the roof hatch) and the condenser unit SPX 1200C (on the rear wall) are installed separately (split).

#### Properties

High cooling output: 1200 W

Low power consumption: 5 A in Eco mode

Max. current consumption: 25 A

Weight: SPX 1200T approx. 20 kg,  
SPX 1200C approx. 13 kg

ADR compliant for all classes except EX/II, EX/III

Auxiliary air-conditioning system suitable for ambient temperatures from 5 °C to 52 °C

#### ! Note

- In some cases, vehicles for swap bodies may not be suitable for installation of the rear wall unit SPX 1200C. Check the distance between the rear wall of the cab and the body.
- To prevent damage to the roof-mounted air-conditioning unit and the spoiler, it is essential to use the spacers included for the spoiler on GM cabs from MY 2020.
- Changes or modifications to the roof spoiler are not permitted and will invalidate the general operating permit (ABE).  
Equipping the vehicle with 210-Ah Super Longlife (AGM) batteries with the more powerful alternator Longlife Eco is recommended.

Item number	Designation	Suitable for
K3.61920-6006	Condenser rear wall unit SPX1200C	All TG models with roof hatch Not for: TGL, TGM, with C cab, TGL, TGM, TGS with TM (LX) cab with roof spoiler without aero package
K3.61920-6007	Evaporator roof unit SPX1200T	All TG models with roof hatch Not for: TGL, TGM, with C cab, TGL, TGM, TGS with TM (LX) cab with roof spoiler without aero package

## Cool and stowage boxes

### Coolbox, 20 l

Two 1-litre bottles can be stored upright in the front section of the coolbox installed between the driver's seat and the co driver's seat. The lid can be folded back, creating a large opening angle of max. 100° for convenient access. The coolbox is equipped with integrated battery protection which switches off the coolbox automatically if the battery voltage drops too low. Two trays located on the top of the coolbox offer additional space for small and flat items.

The coolbox has two setting options:

- In hibernation mode (temperature is maintained) or normal operation (temperature is gradually reached), the compressor runs at a reduced speed.
- When the quick cooling function is active (refrigerator cools down rapidly to the desired temperature), the compressor runs at maximum speed until the set temperature has been reached, after which it automatically switches to normal operation. When starting for the first time, after a lengthy period of non operation or whenever a large amount of warm food is placed in the coolbox, the quick-cooling function prevents the temperature from rising too far.

#### Properties

Power requirement (min./max.): 30 W/60 W

Temperature range from: + 2°C to + 15°C (tolerance +/-2°C)

Refrigerant: R1234yf

Dimensions in mm (L x W x H): 430 x 235 x 295

Volume: 21 l

LED-display with temperature indicator

Quick-cooling function

Item number	Designation	Suitable for

### Coolbox, 30 l

Two 1-litre bottles can be stored upright in the front section of the coolbox installed centrally below the bunk. A mesh divider keeps the bottles securely in place while driving and protects the contents behind them. The refrigerator is equipped with integrated battery protection which switches off the refrigerator automatically if the battery voltage drops too low.

Two variants are available: One is installed in a fixed position (can only be accessed with the bunk folded up); the other can be extended for convenient access.

The coolbox has two setting options:

U1.62159-5010	Hammock*	TGX from MY 2020

\*The item number does not contain any assembly parts. These must be ordered separately.

# COMFORT

## Mattresses

Our MAN Genuine mattresses offer the driver a good night's sleep and comfortable rest periods – so that they can arrive rested and safely at their next destination. The removable and easy-to-clean cover is very hygienic, making it ideal for allergy sufferers. Thanks to the open-pored structure of the cold foam, the durable mattresses are breathable, permeable to moisture, light and offer good thermal insulation. Their high elasticity means they perfectly adapt to the body.

### Mattresses for vehicles from MY 2020

Multi-zone cold foam mattresses in three different thicknesses in the colours Moon grey or Desert beige are available for trucks from model year 2020 onwards.

### Luxury

With a thickness of 110 mm and seven ergonomic zones for the head, neck/shoulder, lumbar and pelvic areas, the Luxury cold foam mattress offers the highest level of comfort. It ensures optimum pressure relief for healthy resting and comfortable sleeping. The fabric cover is breathable and can be removed and washed for improved cleaning. Two Velcro tapes secure the mattress to prevent it from slipping on the slatted mattress support.

Item number	Designation	Fits with (trucks from MY 2020)
81.62160-6120	Luxury mattress, top 110 mm, 7 lying zones, Moon grey	GM, GX cabs
81.62160-6121	Luxury mattress, top 110 mm, 7 lying zones, Desert beige	
81.62160-6126	Luxury mattress, bottom 110 mm, 7 lying zones, Desert beige	GN, GM, GX cabs
81.62160-6127	Luxury mattress, bottom 110 mm, 7 lying zones, Moon grey	
81.62160-6132	Luxury mattress, top 110 mm, 7 lying zones, Moon grey	TM cab
81.62160-6133	Luxury mattress, top 110 mm, 7 lying zones, Desert beige	
81.62160-6138	Luxury mattress, bottom 110 mm, 7 lying zones, Moon grey	TN, TM cabs

# COMFORT

## Mattresses

### Mattresses for vehicles up to MY 2019

For vehicles up to model year 2019, you can choose from two different mattress thicknesses in grey.

#### Luxury

The Luxury cold foam mattress offers a thickness of 90 mm and differentiated hardness zones for the highest level of comfort. It ensures optimum pressure relief for very healthy resting and exceptionally comfortable sleeping. The fabric cover is breathable and can be removed and washed for improved cleaning. Two Velcro tapes secure the mattress to prevent it from slipping on the slatted mattress support. The mattress covers can also be ordered separately.

Item number	Designation	Fits with (trucks up to MY 2019)
81.62160-6093	Luxury mattress, bottom, 90 mm	XL XLX, XXL cabs (not for TGA XL)
81.62160-6096	Luxury mattress, top, 90 mm	XXL cab (not for TGA)
81.62160-6099	Luxury cover, bottom	XL XLX, XXL cabs (not for TGA XL)
81.62160-6102	Luxury cover, top	XXL cab (not for TGA)

#### Comfort

The Comfort cold foam mattress offers a thickness of 70 mm and a very good level of comfort for lying and sleeping. Hygienic and easy to clean, thanks to a breathable, washable and replaceable fabric cover. Two Velcro tapes secure the mattress to prevent it from slipping on the slatted mattress support. The mattress covers can also be ordered separately.

Item number	Designation	Fits with (trucks up to MY 2019)

# COMFORT

## Reading light, LED, 12/24 V

With its elegant and dynamic design, the MAN Genuine LED reading light blends seamlessly into any vehicle interior. It is very flexible and therefore suitable for illuminating a wide range of areas in the cab. The neck of the lamp has a matt black silicone surface and can be individually aligned. The lamp has an on/off switch so that it can always remain connected.

### Properties

Supply voltage: 12 V and 24 V via cigarette lighter

Lumen: 20 lm

Long flex arm: 370 mm

Weight: 84 g

Service life: up to 20,000 operating hours

Soft, non-slip and dirt-resistant surface

Item number	Designation	Suitable for
K3.25202-6000	Reading light 12/24 V	All TG models, incl. TGE

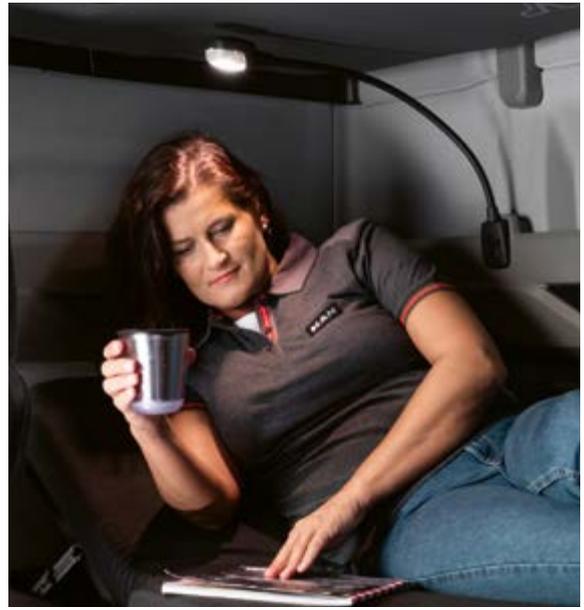

# COMFORT

## Gooseneck lamp

The gooseneck lamp with its flexible neck can be used as a reading lamp as well as to illuminate compartments. It provides cosy illumination of the rest area in a warm, pleasant light colour.

The 360°-rotatable lamp head allows illumination of any part of the rest area. It can easily be switched on and off by means of a switch in the base.

### Properties

Nominal voltage: 24 V

Power consumption: 5 W

The lamp head can be rotated 360°

Item number	Designation	Suitable for
81.25201-6289	Gooseneck lamp	All TG

## Reading lamp 24 V

The MAN Genuine reading lamp has a strong spring clip so that it can always be securely attached to book spines, sunblinds or table edges.

Item number	Designation	Suitable for
81.66804-6030	Reading lamp 24 V	All TG models with 24 V cigarette lighter

# COMFORT

## Cup holder up to model year 2017

The instrument panel is equipped with a cup holder and storage tray; here you can store cups, cans or small bottles securely. The cup holder can be inserted in the storage tray in two different positions.

### Properties

Installation depth: 40 mm

Matched to instrument panel middle section

Colour: Anthracite

### Item number

81.63740-6015

### Designation

Cup holder

### Suitable for

TGL and TGM from Euro 6 up to MY 2017  
TGS and TGX up to MY 2017

## Cup holder from model year 2018 to model year 2019

With the 2018 facelift, all MAN TG vehicles receive new cup holders that can be positioned variably and fixed in place. The wide instrument panel in the TGX offers up to four spaces, while the narrow instrument panel in TGL, TGM and TGS offers space for two cup holders.

### Properties

Installation depth: 40 mm

Matched to instrument panel middle section

Colour: Anthracite

### Item number

81.61701-6691

### Designation

Cup holder

### Suitable for

TGL, TGM, TGS and TGX from MY 2018 to MY 2019

# COMFORT

## Hand coffee maker

The MAN Genuine hand coffee maker permits easy and fast coffee preparation in every cab. The coffee maker is simply connected to the 24 V cigarette lighter and can be used with all standard commercially available coffee soft pads. Thanks to easy operation, it is already possible to enjoy fresh coffee after a brewing time of around four minutes. In addition to its simple handling, the coffee maker also stands out thanks to its elegant design matched to the interior fittings of our vehicles.

### Properties

Material: ABS and rubber

Colour: Black

Weight: 810 g

24 V DC/140 W

Dimensions: 92 x 92 x 220 mm

Maximum pressure: 2 bar

Brewing time: 4 minutes

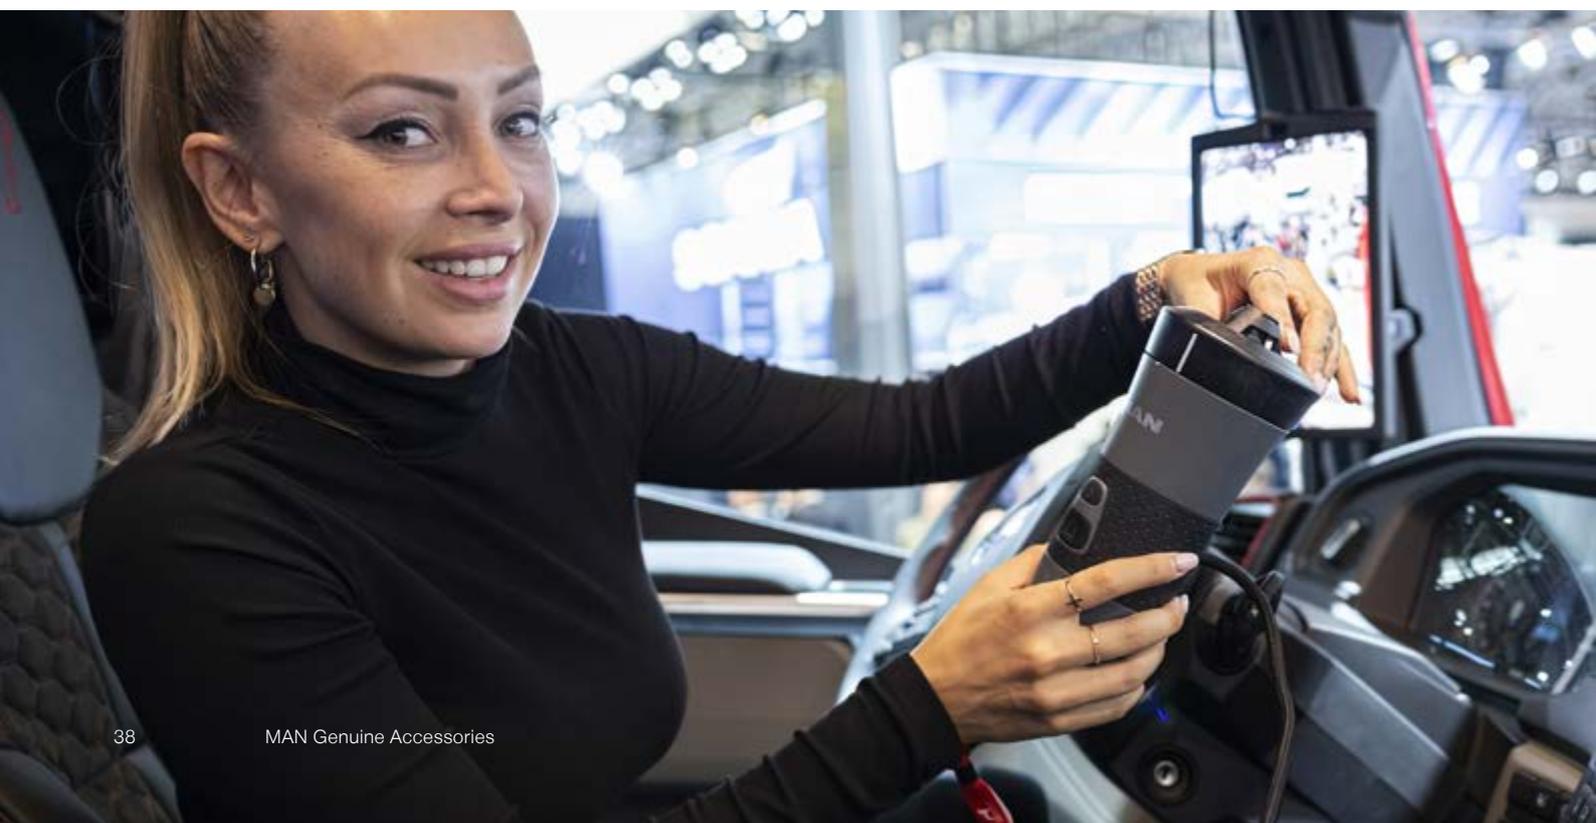

Capacity: 110 ml

### **!** Note

For the hand coffee maker, a pad with a diameter of about 7 cm is required for coffee preparation. This corresponds, for example, to a pad for the Senseo coffee pad machine from Philips.

Item number	Designation	Suitable for
K3.77620-6000	Hand coffee maker	TG models with 24 V cigarette lighter

# COMFORT

## Ashtray

Ashtray with cigarette holder and a small groove to extinguish the cigarette. Versatile can be used as a table ashtray outside the vehicle.

### Properties

Matched with the MAN genuine cup holder

Item number	Designation	Suitable for
81.63740-6039	Ashtray, anthracite, height approx. 12,7 cm, base diameter approx. 7 cm	TG models from MY 2020
81.63740-6038	Ashtray, anthracite, height approx. 12,7 cm, base diameter approx. 6 cm	TG models from MY 2018; TGE
81.63740-6001	Ashtray satin black	TGE
81.63740-6003	Base for ashtray satin black	

## Cup holder from model year 2018 to model year 2019

With our MAN Genuine folding table, you can create additional space for relaxing, eating or working in the cab. The folding mechanism is mounted on the lower bunk. When folded, the table is safely stored in front of the lower bunk.

Item number	Designation	Suitable for
85.63912-1008	Folding table	TGX up to MY 2019

# COMFORT

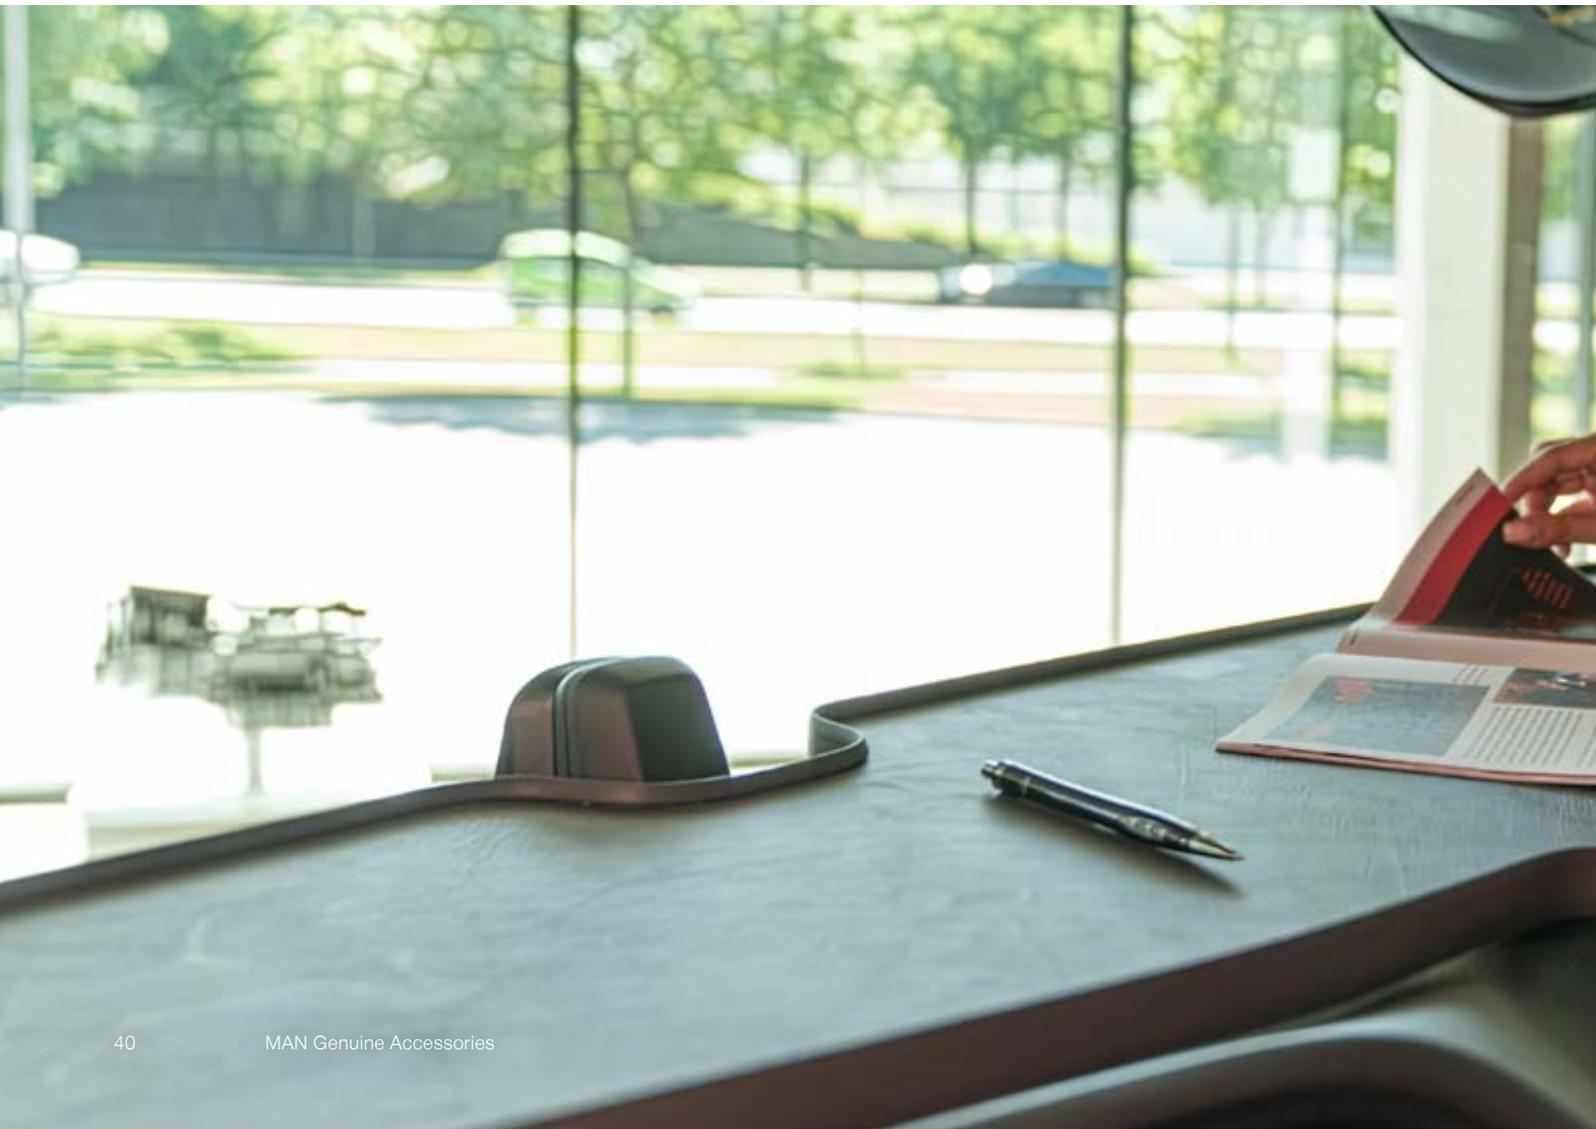

## Dash Storage Board

With its slim and unobtrusive design, the practical dash storage board creates additional space for working or storing items. It is made of high-quality materials and harmonises perfectly with the colour scheme in the cab due to the coating with anthracite-coloured imitation leather. The non-slip surface also ensures a secure hold of the discarded objects.

Special version available for vehicles with MAN Opti-View mirror replacement system.

### **!** Note

Care must be taken to ensure that national admission requirements are complied with. No objects may be placed on the storage board while driving.

# COMFORT

## Dash Storage Board

### Properties

High-quality material coated with imitation leather and soft edge in anthracite

Non-slip surface

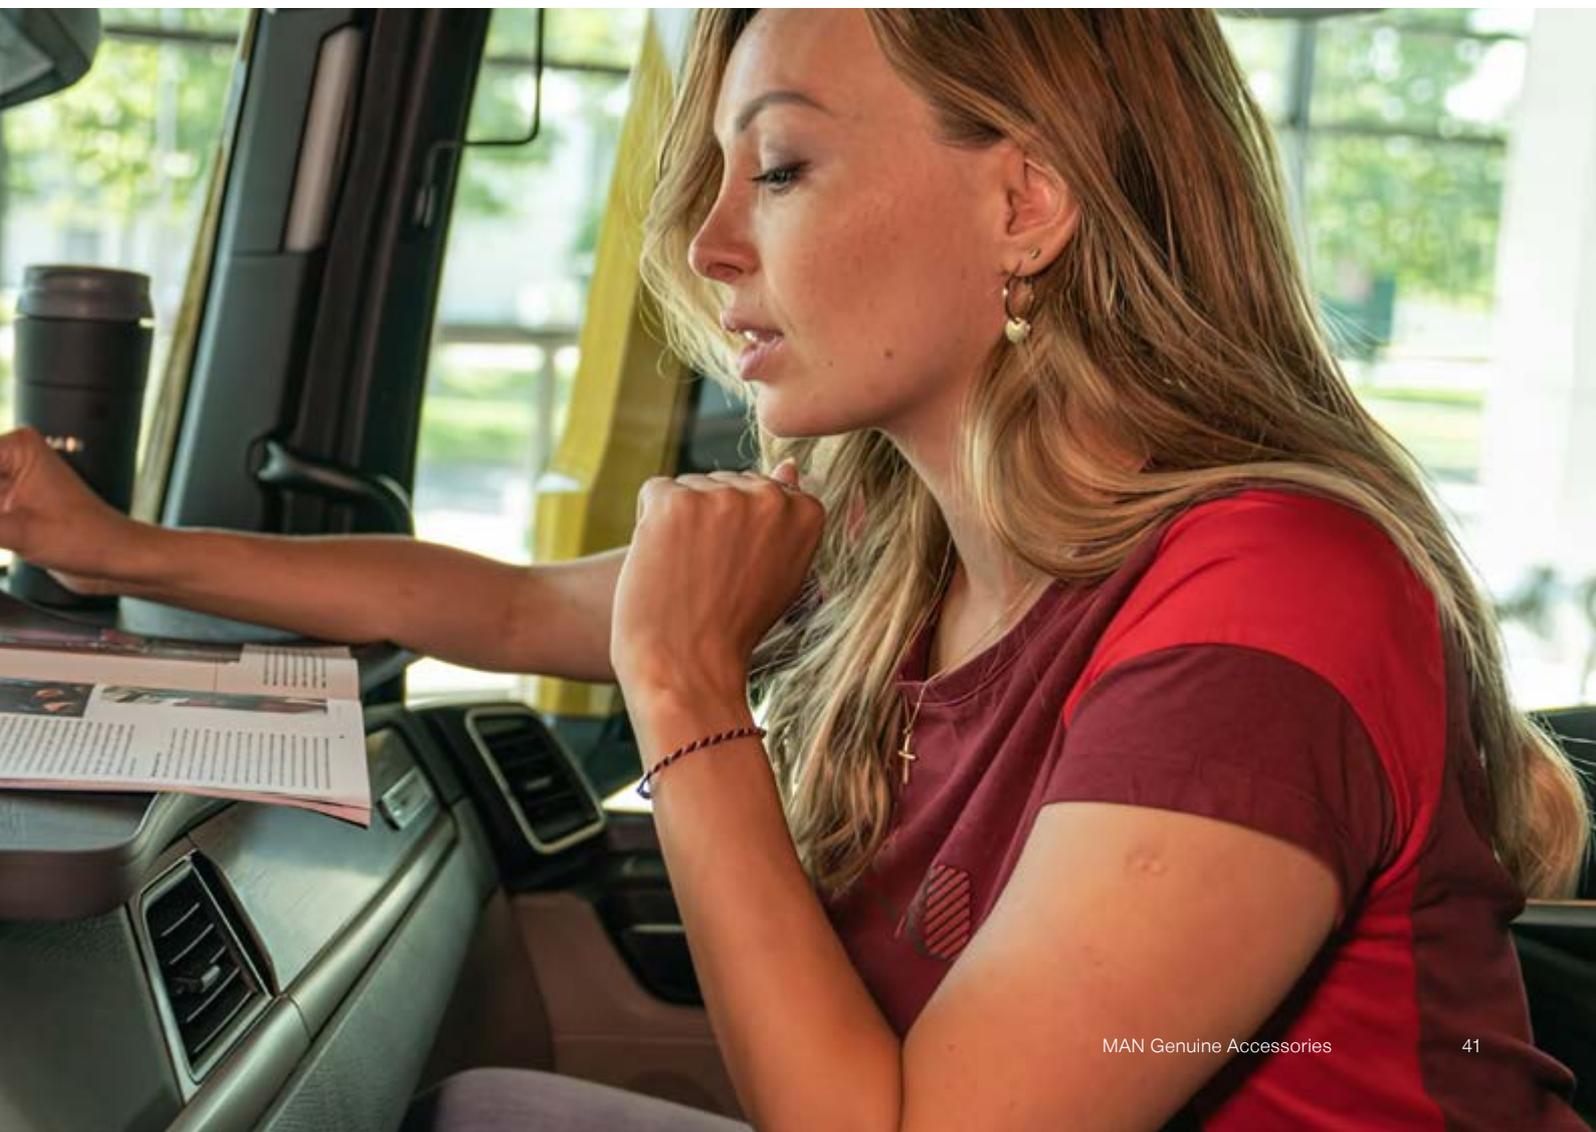

No restriction of the legally required fields of vision

Supply with general operating permit (ABE)

Maximum load: 8 kg (avoid point loading)

Complies with general flammability requirements for vehicle interiors according to UN ECER118 (Annex 6) or FMVSS 302

Item number	Designation	Suitable for

## Compressed-air connection in cab

The MAN Genuine compressed-air connection in the cab enables the connection of an MAN Genuine compressed-air gun or MAN Genuine tyre inflation hose.

### Properties

Supply pressure: Approx. 5 – 6 bar

Item number	Designation
81.98125-6120	Compressed-air connection
81.51715-0376	Holder
04.35160-9776	Polyamide pipe 6X1
06.11164-8304	Hex nut M16X1.5
81.98181-0160	Clamping ring 6

### Suitable for

TGL, TGM, TGS and TGX models

## Compressed-air gun

The MAN Genuine compressed-air gun allows the vehicle interior to be blown out with compressed air for cleaning purposes.

### Properties

Hose length: 350 cm

Supply pressure: Approx. 5 – 6 bar

### **!** Note

A compressed-air connection in the cab is required for the compressed-air hose with compressed-air gun. From this point, the driver can reach and clean every part of the cab with the coiled hose and the compressed-air gun.

Item number	Designation
81.66818-6034	Compressed-air gun, Hose length 3.500 mm, black with MAN branding

### Suitable for

TGL, TGM, TGS and TGX models

# COMFORT

## Care utensils

Keep the cockpit clean with our useful care utensils. Whether multi-purpose cleaner, special windscreen cleaner or our antifreeze and frost remover – you'll always have your cockpit under control.

Item number	Designation	Suitable for
09.28003-0062	Washer fluid antifreeze, 1 litre	All MAN vehicles
09.28003-0087	Washer fluid antifreeze, 5 litres	
09.28003-0063	All-purpose cleaner, 1 litre	
09.28003-0061	Windscreen cleaner 0.5 litres	

## Waste container

Removable and easy-to-clean waste container between the seats.

Increased interior comfort and ease of use thanks to:

- Cleanliness in the interior
- Waste container also easily accessible from the bed

High quality with closed surfaces made of easy-to-clean and washable material.

Item number	Designation	Suitable for
81.66912-6264	Waste container	TGS and TGX up to MY 2019
81.66912-6294	Waste container in storage box	GM, GN and GX cab from MY 2020
81.66912-6295	Waste container in storage box	TN and TM cab from MY 2020

MAN  
Genuine Accessories

# COMFORT

## Wind deflector

The wind deflectors provide optimum ventilation for the vehicle interior. They therefore provide greater driving comfort and improve the interior climate. They prevent uncomfortable heat build-up in direct sunlight. The air can circulate even if it rains or snows, as the side windows can remain slightly open without the driver noticing significant increase in wind noise. As a result, the air-conditioning system can be switched off at times and operating costs reduced.

### Properties

---

One set contains two deflectors including mounting material, suitable for the left and right side

---

Made of high-quality cast acrylic glass

---

Colour selection: Transparent, tinted, dark

---

Easy-care, weather-resistant and withstand washing in a washing system

---

With general type approval (ABE)

---

### Note

In Switzerland, only transparent wind deflectors are permitted

## Door wind deflector TGE

Door wind deflectors for the front side vehicle doors enable optimal ventilation of the vehicle interior and add to your driving comfort. They improve the interior climate and make it possible to enjoy circulating fresh air, even when it is raining or snowing. In strong sunlight, they prevent the unpleasant accumulation of heat in the vehicle interior when the windows remain open up to just above the lower edge of the wind deflector. (1 set = 2 units)

**! Note**

Please note: product has no approval for Switzerland!

Item number	Designation	Suitable for
65.62610-6000	Door wind deflector	TGE

# LESS FRICTION, MORE EFFICIENCY.

## MAN Genuine Oil.

MAN Genuine Oil is the ideal complement for the core elements of an MAN vehicle: engine, gearbox and driven axles. In conjunction with perfectly harmonised components, MAN Genuine Oils provide proven protection from wear. In this way, they can help significantly extend the life cycle and reduce operating costs. Less wear, greater efficiency. With MAN Genuine Oil. Available now at your MAN service centre.

# COMFORT

## Door side extension

A door side trim made of damage-resistant plastic attached to the underside of the doors improves the aerodynamic flow around the vehicle. This reduces fuel consumption. The entrance area becomes less dirty and is not exposed to the weather. The vehicle is visually enhanced and the driver is protected from slipping on icy or dirty steps. Furthermore, access to the cab is made more difficult by the concealed steps. This offers protection against theft.

### **Note**

Fitting by a MAN service outlet is recommended.

Item number	Designation	Suitable for
81.62610-0075	Door extension, left, narrow, RAL 9010*	GS with TN, TM and NN cab from MY 2020 onwards
81.62610-0076	Door extension, right, narrow, RAL 9010*

81.61230-0400	Mud flap, right step unit, TGS	TGS from MY 2020

### **!** Note

An overview of additional assembly parts can be found in the following table.  
Fitting by a MAN service outlet is recommended.

Item number	Designation	Suitable for
81.92201-0115	Expanding rivet	TGS, TGX from MY 2020

# SAFETY

## Driving safely.

MAN trucks offer outstanding active and passive safety. Still, it's always best to play things safe with a few extras that can help out in emergencies – or prevent them from occurring in the first place.

With MAN Genuine Accessories, you can be completely sure that everything works and fits together perfectly. Get home safely!

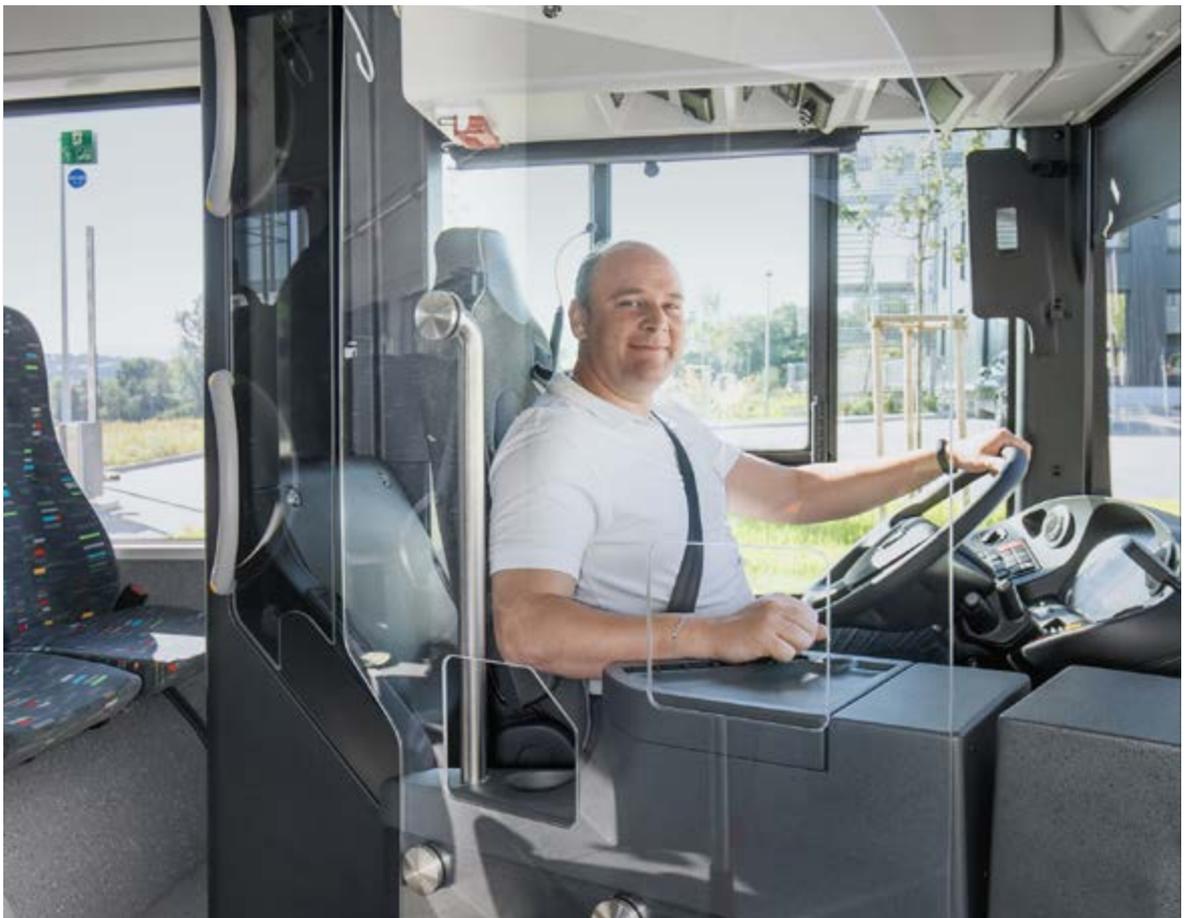

# SAFETY

## Protective screens

Comprehensive protective measures are a must! Meet your responsibilities and master the current challenges in the best possible way: with MAN Genuine protective screens made from certified MAN Genuine single-pane safety glass. Fitted in next to no time by competent MAN Service staff, they eliminate hazards – as required by testing authorities! MAN Genuine protective devices meet all technical requirements with regard to components and design.

A convenient cutout makes it easy for the driver to collect fares, issue tickets and change, and check tickets.

### Properties

---

Permitted as a permanent fixture in the vehicle

---

Comply with the latest standards and safety regulations

---

Stylish design, no glare

---

Available for Lion's City (from MY 2018, 12C/18C/19C) and in four variants for most MAN city buses (up to MY 2018, A2X, A3X and A7X)

### **!** Note

You can use the variant list in the MAN Service Portal to easily check which variant is suitable for your vehicle. Ask your MAN service outlet for detailed information. Fitting by an MAN service outlet is recommended.

# SAFETY

## Revolving beacon

A revolving beacon warns of dangerous situations such as accidents or deployment sites. It ensures maximum own and third-party safety, emitting intensive warning signals by means of optimum light bundling and distribution.

### Properties

---

Light distribution in accordance with ECE-R65 and R10

---

LED technology

---

10 to 32 V

---

Dimensions: dia. 130 mm x 80 mm

---

### **!** Note

Revolving beacons mounted on the vehicle are reserved for priority route users and special-purpose vehicles.

Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
81.25207-6074	LED revolving beacon, yellow	TGL, TGM, TGS and TGX models
81.25207-6075	LED revolving beacon, blue	
Also available in a halogen variant		
81.25207-6072	Revolving beacon, yellow	
81.25207-6073	Revolving beacon, blue	

# SAFETY

## LED spotlight MAN

MAN Genuine LED spotlights ensure greater safety at work thanks to optimal lighting conditions. The LED technology provides particularly bright light whilst requiring little energy, and is both durable and state-of-the-art. Thanks to the advanced type of protection, the spotlights are guaranteed to be particularly robust. Three light distributions for long-range illumination, close-range illumination and R23/close-range illumination are available in three light intensities of 1,200, 2,000 and 3,000 lumens.

### Properties

Robust and durable LED technology with innovative thermal management

Suitable for the harshest requirements and outdoor conditions thanks to aluminium die-cast housing

Scratch and UV resistant owing to coated cover glass

Watertight even when high-pressure cleaners (IP6K9K) are used

### ! Note

The LED spotlights have an integrated Lear plug and a bracket (exception: LED spotlight with ECE-R23 approval as reversing light). Fitting by an MAN service outlet is recommended.

### ➔ Further information

Further product details and a parts list for the R23 plug set can be found in the ► [MAN Service Portal](#).

Item number	Designation	Suitable for
U1.25103-6014	Close-range illumination, 1,200 lumens	TGL, TGM, TGS and TGX with bracket and wiring for spotlight ex works

U1.25103-6018	Close-range illumination, 3,000 lumens	
U1.25103-6019	Close-range illumination 1,000 lumens with R23 approval as reversing light	
U1.25103-6013	Long-range illumination, 1,200 lumens	
U1.25103-6015	Long-range illumination, 2,000 lumens	
U1.25103-6017	Long-range illumination, 3,000 lumens	
U1.25140-6000	Spotlight bracket (special bracket for spotlight)	

# SAFETY

## LED spotlight

With two different light outputs for long- or close-range illumination, there is a suitable solution for every requirement.

### Properties

Robust and durable LED technology with innovative thermal management

Suitable for the harshest requirements and outdoor conditions thanks to aluminium die-cast housing

Scratch and UV resistant owing to coated cover glass

Watertight even when high-pressure cleaners (IP6K9K) are used

### **!** Note

Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
U1.25103-6023	Close-range illumination, 1,000 lumens	TGL, TGM, TGS and TGX with bracket and wiring for spotlight ex works
U1.25103-6022	Close-range illumination, 1,800 lumens	
U1.25103-6021	Long-range illumination, 1,000 lumens	
U1.25103-6020	Long-range illumination, 1,800 lumens	

## Spotlight, halogen

The spotlight illuminates the desired area. With extra-robust housing, this spotlight is also suitable for construction sites.

### Properties

H3 bulb, 70 W

24 V, plug connector for simple connection

Item number	Designation	Suitable for
81.25103-6068	Spotlight	TGL, TGM, TGS and TGX models

# SAFETY

## Additional reversing light, LED

With the additional reversing lights it is possible to recognise obstacles, the road condition and the edge of the road even more clearly in the dark.

The LED technology provides particularly bright light whilst requiring little energy, and is both durable and state-of-the-art. The high degree of protection guarantees that the reversing light is particularly rugged.

### Properties

- Robust and durable LED technology with innovative thermal management
- Suitable for the harshest requirements and outdoor conditions thanks to aluminium die-cast housing
- Scratch and UV resistant owing to coated cover glass
- Watertight even when high-pressure cleaners (IP6K9K) are used
- Close-range illumination with 1,000 lumens

### ! Note

The reversing light has a German plug connection. Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
U1.25103-6019	Close-range illumination, 1,000 lumens	TGL, TGM, TGS and TGX with bracket and wiring for reversing light ex works
81.25449-5044	Y-adapter cable, 1.5 m	TGL, TGM, TGS and TGX from MY 2020

## Additional reversing light, halogen

With the additional reversing lights you can make out obstacles, the road condition and the edge of the road even more clearly in the dark. Another impressive feature is the replaceable lens, which means that it is not necessary to replace the complete light unit in the event of damage. A bulb retaining device that is particularly stable against vibration ensures a longer service life.

### Properties

H3 bulb, 24 V/21 W

Item number	Designation	Suitable for
81.25103-6074	Additional reversing light	TGL, TGM, TGS and TGX models

# SAFETY

## DTCO thermal paper

The paper roll offers excellent readability and reliability, even in the event of large temperature fluctuations. Can also be used for other tachographs such as VDO, Actia and Stoneridge.

### Properties

3 x 8 m rolls

Item number	Designation	Suitable for
81.27103-6000	DTCO thermal paper	All MAN vehicles with digital tachograph

## Tachograph disc

The tachograph discs record speed, distance travelled and steering and rest times. They are manufactured according to DIN ISO 9001 and can be evaluated using the following methods:

- Visual evaluation
- Software evaluation
- Microscopic evaluation

### Properties

Scope of delivery: 100 tachograph discs per item number

Item number	Designation	Suitable for
81.27103-0026	125-3000-24E tachograph disc (one day, one driver, 125 km/h)	All MAN vehicles with an analogue tachograph
81.27103-0052	Tachograph disc (one day, 125 km/h)	
81.27103-0053	125-24/2EC4B tachograph disc (one day, two drivers, 125 km/h, electronically evaluable)	Combination disc, not electronically evaluable, separate approval for Austria (not replaceable with 81.27103-0053)
82.27103-0017	24EC4KA tachograph disc (combination tachograph disc without speed, Austria)

## Tool storage

With this tool pouch or tool box, you have everything you need for your MAN whatever happens: this includes spanners, wheel nut spanners, screwdrivers.

Item number	Designation	Suitable for
81.66802-6201	Tool bag with contents	TGS, TGX with plastic bumper
81.66802-6206	Tool bag with contents	TGS, TGX with steel bumper
81.66802-6202	Tool bag with contents	TGM
81.66802-6208	Tool bag with contents	TGL; all TGM with N16 VIN
81.66802-6165	Tool bag with contents	TGA
65.66802-0003	Tool box for floor storage compartment	TGE
65.66802-0002	Tool pouch (without contents)	All MAN vehicles

## Bulb box

With this bulb box you always have a clear view: if a bulb ever burns out, this kit enables you to rectify any damage quickly and easily. Includes the most common bulbs and fuses for all TG models and MAN buses/coaches with H7 lamps.

Item number	Designation	Suitable for
07.92000-4029	Bulb box	TGL, TGM, TGS and TGX models and all buses/coaches with H7 lamps

# SAFETY

## Fuel tank guard

The MAN Genuine fuel tank guard protects the tank against fuel theft. It locks the tank securely so that no fuel can be extracted through the filler opening.

Two variants are available, an internal and external guard, both of which reliably prevent fuel extraction. The external variant is also visible from the outside and has a deterrent effect. Attempted theft is prevented from the outset, thus avoiding damage to the vehicle.

Supplementing this is the anti-spill valve, which prevents fuel leakage in the event of an accident. It can be inserted into both the internal and external guard. The valve is pressed inwards by the tank nozzle.

The right assembly tool ensures quick and easy fitting.

### Properties

---

Version in robust aluminium alloy

---

150 litres/minute flow rate

---

### **!** Note

The external variant may not be suitable for certain bodies.

Item number	Designation	Suitable for
K3.12210-6000	External guard	TGL, TGM, TGS and TGX models
K3.12210-6001	Internal guard	
K3.12240-6001	Anti-spill valve	
K3.12240-6000	Assembly tools	

# SAFETY

## Filler cap, lockable

High quality and robust: Equip your vehicle with a lockable fuel-tank cap to protect yourself against fuel theft.

### Properties

Colour: Black

Ventilated cap with bayonet lock for diesel tanks

### **!** Note

## Protective cage for tail lights

In order to provide all-round protection for your vehicle, we offer you a protective cage for the tail lights. Especially convenient thanks to a folding function that makes it easier to change bulbs.

### **!** Note

For this product, please observe the applicable road traffic regulations of your country. In most European countries this product is not approved for use on public roads, which means it can only be used on private land, such as for on-site traffic at a gravel quarry, for example.

Item number	Designation	Suitable for
81.25209-6008	Protective cage assembly (two units required)	TGM, TGS

## Protective cover over tail lights

Sheet steel cover as a protective cover above the 7-cell tail lights on the left and right.

### **!** Note

For this product, please observe the applicable road traffic regulations of your country. In most European countries this product is not approved for use on public roads, which means it can only be used on private land, such as for on-site traffic at a gravel quarry, for example.

Item number	Designation	Suitable for
81.42940-0321	Protective cover, left	TGS, TGX
81.42940-0322	Protective cover, right	

# SAFETY

## Protective guard, headlight (for vehicles up to MY 2019)

The removable steel grilles (coarsely meshed as basic version and finely meshed as an attachment for off-road/construction site deployment) protect the headlights from stone chips and damage.

### ! Note

- Only for vehicles with steel bumper!
- The coarsely meshed basic variant is EU-compliant.
- The optionally available attachment with fine mesh must be used only for off-road applications.

Item number	Designation	Suitable for	
81.41630-5053	Protective guard, left	TGL and TGM up to MY 2019 with steel bumper with headlight cleaning system	
81.41630-5052	Protective guard, right		
81.41630-5055	Attachment, fine mesh, left		
81.41630-5054	Attachment, fine mesh, right

## Mud flap

1

### Mud flap TG series

The mud flaps on the rear axle mudguards form part of the splash guard system and with their branding make a clear statement for proud MAN drivers.

The mud flaps, which are made from a flexible plastic material, make the mudguards longer at the back. They improve visibility for drivers and road users behind when the roads are wet and significantly reduce the amount of splashing water and spray mist.

#### Properties

Colour: black with white MAN logo

Surface: Smooth

Material: Plastic

Item number	Designation	Suitable for
81.66410-0573	Mud flap with MAN logo 684 mm x 124 mm	TG series
81.66410-0574	Mud flap with MAN logo 684 mm x 217 mm	
81.66410-0575	Mud flap with MAN logo 684 mm x 310 mm	
81.66410-0576	Mud flap with MAN logo 684 mm x 376 mm	

# SAFETY

## Mud flap

### Mud flap TGE

Tough and durable: MAN Genuine mud flaps effectively protect the underbody, bumper, side skirts and doors against heavy soiling and hazardous stone damage. Spray water dispersion is also greatly reduced.

## Grab handles TGE

The vertical grab handle facilitates ergonomic access to the cargo compartment/passenger area.

**! Note**

Additional parts such as screws are required for installation

Item number	Designation
65.62540-0018	D-pillar grab handle
65.62540-0019	B-pillar grab handle

Suitable for
TGE

## Underride protection TGE

The rear and side underride protection reduces the risk of other road users ending up under the vehicle in the event of a rear-end collision. The underride protection consists of a sturdy tubular steel frame.

**! Note**

Additional parts such as screws and brackets are required for installation. Depending on the vehicle requirements, the side underride protection will need to be shortened.

Item number	Designation
65.41660-5013	Underride protection, rear, rally black
65.41660-5014	Underride protection, rear, rally black
65.41670-6001	Side underride protection
65.41670-6000	Side underride protection

Suitable for
TGE, vehicles without operation with trailer
TGE, vehicles with operation with trailer

## Adhesive labels and signs

Pay particular attention to special vehicle applications. Adhesive labels, warning signs and information labels appropriate for all vehicles with the appropriate permit.

Item number	Designation	Suitable for
81.97812-2109	Red/white adhesive foil warning stripe, 282 mm x 282 mm	TGX, TGS, TGM, TGL, TGA
81.97812-2111	Red/white adhesive foil warning stripe, 141 mm x 282 mm, pointing left	TGX, TGS, TGM, TGL, TGA und Lions City
81.97812-2112	Red/white adhesive foil warning stripe, 141 mm x 282 mm, pointing right	TGX, TGS, TGM, TGL, TGA

Item number	Designation	Suitable for
81.97812-2488	Adhesive label L, diameter 150 mm, "Austrian low-noise truck" transport tag	All TG series
81.97801-2609	Adhesive label U, diameter 220 mm, environmentally friendly, combines "L" and "S" regulation according to ECMT (European Conference of Ministers of Transport)	
88.97802-2213	Adhesive label G, diameter 220 mm, tag for German low-noise truck according to Section 49 Para. 3 of German Road Traffic Licensing Regulations	
81.66907-0013	ADR dangerous goods plate, fold-up sign, 400 mm x 300 mm	
81.66907-0015	ADR dangerous goods plate, fold-up sign, 400 mm x 300 mm	

# INFOTAINMENT

## Better informed, arrive safely.

Optimal safety, reliable navigation, on-time goods delivery and extensive communication possibilities are a must for professional truckers.

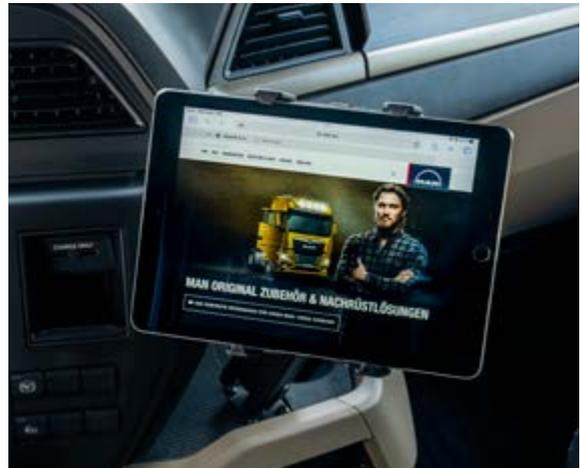

No matter where you need to go: state-of-the-art technology from MAN ensures you get there comfortably and safely.

# INFOTAINMENT

## Tablet holder

Keep an overview of your orders. Whether you're checking e-mails or viewing driving jobs: The MAN Genuine tablet holder means you'll always have your hands free and your information always in view on the instrument panel.

### Properties

The tablet holder consists of a vehicle specific base support and the tablet device holder

Variable adjustment, rotatable by 360°

Suitable for tablets with a height of 120 to 220 mm

No restriction of the legally required viewing areas

Mounted without drilling

With template for cutting the rubber mat in the cup holder

### **!** Note

- The mounted end device must not cover any buttons and displays of the vehicle.
- Not for vehicles with centre seat (without cup holder).
- Not suitable for off-road use.
- Never use the tablet while driving!

Item number	Designation	Suitable for
K3.61701-6000	TGX LL base support	TGX left-hand drive from MY 2020 (with double cup holder)
K3.61701-6001	TGX RL base support	TGX right-hand drive from MY 2020 (with double cup holder)
K3.61701-6002	TGL, TGM, TGS LL base support	TGL/TGM/TGS left-hand drive from MY 2020 (with single cup holder)
K3.61701-6003	TGL, TGM, TGS RL base support	TGL/TGM/TGS right-hand drive from MY 2020 (with single cup holder)
K3.61701-6004	Tablet holder equipment mount	MAN Genuine tablet holder base support

## CB radio sets

Our CB radio sets are equipped with state-of-the-art technology and impress with very easy fitting and operation. The VOX hands-free function of our radio sets allows communication in the vehicle without having to pick up the microphone. The radio detects when the driver is speaking and automatically starts transmission. As a result, our CB radio sets can be used in vehicles without problems in accordance with numerous international road traffic regulations. Our CB radio sets are approved for Europe-wide use.

### ! Note

All parts required for fitting are included. **Adapter cable 33.28104-6085 is also required for fitting CB radio sets in vehicles from model year 2020.**

## Radio MMT\_1 Advanced additional functions (for vehicles from MY 2013 to MY 2016)

The MAN Media Truck Advanced offers the customer a range of functionalities. With the modular design, the customer has the option of adding optionally available additional functions to the basic device to meet their needs and requirements. All at a very attractive price-performance ratio!

### ! Available additional functions:

- 1 Hands-free functionality
- 2 Camera preparation
- 3 USB port /AUX-IN connection
- 4 Navigation

## Hands-free functionality for one mobile phone (multifunction steering wheel and Bluetooth® enabled)

Wireless activation of the hands-free system in the MAN Media Truck Advanced (Bluetooth). For more information on the use of mobile phones in the vehicle, please refer to the Operator's Manual of your vehicle.

### ! Note

The microphone and connecting cable must be present in the vehicle. Due to design, exceptions are possible for selected vehicle types. If they are not present in the vehicle, the item numbers below must be retrofitted.

### ➔ Further information

Pin layout on MMT\_1:

D2	MIC GND	black
D1	MIC +	yellow

A compatibility list of mobile phones can be found in the ► [MAN Service Portal](#).

Item number	Designation	Suitable for
81.25890-7672	MAN Genuine Software	TGL, TGM, TGS and TGX models with MMT_1 from MY 2013 to MY 2016
81.28201-0047	Microphone	
81.25459-5704	MMT connecting cable to A-pillar	
81.25459-5550	Connecting cable A-pillar to roof	

## Camera preparation

Connecting a camera is possible if the required software version is installed on MMT and a camera preparation unit has been fitted. Further details can be found under Repair and maintenance/Service information ► [TI 492402](#).

### ! Note

The camera is connected as per the MANTED® guideline (MAN technical data and Guide to Fitting Bodies).

Item number	Designation	Suitable for
see TI 492402	MAN Genuine Software	TGL and TGM models with MMT_1 from Euro 6 to MY 2016; TGS and TGX models with MMT_1 from MY 2013 to MY 2016

## Radio MMT\_1 Advanced additional functions

(for vehicles from MY 2013 to MY 2016)

3

### USB port/AUX-IN connection in the instrument panel

Connection in the right-hand edge of the centre console stowage compartment.

One connection, many options:

- Charging function for mobile phones
- Connection for external audio sources (e.g. MP3 player)
- USB port for various USB mass storage devices

Space for the left cup holder remains free. An appropriate cut-out in the instrument panel ensures optimum fit.

Item number	Designation	Suitable for
81.25432-0543	USB port and AUX-IN	TGL and TGM models with MMT_1 from Euro 6 to MY 2016; TGS and TGX models with MMT_1 from MY 2013 to MY 2016
81.25460-5032	Cable harness for left-hand-drive and right-hand-drive vehicles	
81.28104-6057	Connecting cable, left-hand-drive vehicle	
81.28104-6058	Connecting cable, right-hand-drive vehicle	

#### **Note**

In individual cases, the socket connector C on the MMT is not assigned. For these individual cases, the socket connector is available separately as a single part:

Item number	Designation	Suitable for
81.25475-0247	Socket connector, 12-pin	TGL and TGM models with MMT_1 from Euro 6 to MY 2016; TGS and TGX models with MMT_1 from MY 2013 to MY 2016
81.25475-0244	Locking part	

# INFOTAINMENT

## Radio MMT\_1 Advanced additional functions

(for vehicles from MY 2013 to MY 2016)

### Navigation

The navigation function requires the function parameters to be enabled on MMT. A micro SD card with map material (by region) must also be ordered separately.

#### **!** Note

As prerequisite, a GPS antenna must be present. Please enquire about our 3G/GPS combined adhesive antenna or LTE/GNSS combined adhesive antenna.

4

Item number	Designation	Suitable for
81.25890-7674	MAN Genuine Software	

#### Navigation-SD-cards

The following regions are available:

Item number	Designation	Suitable for
81.28151-0116	SD-Card Central Europe 2022/23	All TG series and busses with MMT_1/ MMC_1 up to MY 2016
81.28151-0117	SD-Card Western Europe 2022/23	
81.28151-0113	SD-Card Eastern Europe 2020/21	
81.28151-0093	SD-Card Australia/New Zealand 2016/17	
81.28151-0081	SD-Card Brazil 2016

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

The radio is increasingly taking on the function of a central multimedia interface in the vehicle. A new generation of MAN infotainment devices has been available since model year 2017 in order to meet the wishes of vehicle crews for flexible media selection, for example.

Alongside these radio devices with their five- and seven-inch colour displays, there is a large range of expansion options to choose from.

### ! Available additional functions

	MMT Starter without DAB	MMT Starter with DAB	MMT Advanced
1 Operation via multifunction steering wheel	■	■	■

## 1

### Operation via multifunction steering wheel

The function enables the operation of telephony, radio and voice dialogue system by means of the multifunction steering wheel:

- Making/accepting/rejecting phone calls
- Changing audio sources
- Selecting station list/media tracks
- Activating/deactivating optional voice control

Significant increase in driving safety as all functions can be operated without removing hands from the steering wheel.

### ! Note

The multifunction steering wheel (MFL) is a prerequisite.

Item number	Designation	Suitable for
81.25890-7677	MAN Genuine Software	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019

# INFOTAINMENT

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

### Audio streaming via Bluetooth interface

Bluetooth connection via MMT user interface and/or multifunction steering wheel.

- Convenient option of playing audio files from a mobile phone via an active Bluetooth connection using MMT.
- All the advantages of the high-quality loudspeaker system matched to the cab can then be utilised. No additional equipment/adaptor cables are needed.
- Once the initial pairing (mobile phone – MMT) has been carried out, the devices are automatically connected at every new start whenever the Bluetooth function is active.

Item number	Designation	Suitable for
81.25890-7886	MAN Genuine Software	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019

### USB port/AUX-IN connection in the instrument panel

A USB port/AUX-IN connection is integrated in the right edge of the centre console stowage compartment. The corresponding cutout ensures the optimal fit.

- USB charging function (e.g. for mobile phones via USB connecting cable)
- Connection for external audio sources (e.g. MP3 player or mobile phone) Control via MMT possible for USB port.
- The advantages of the high-quality loudspeaker system matched to the cab can be utilised.
- Information (e.g. track, artist, album) of each audio track is shown on the MMT display.
- Space for the left cup holder remains free.

Item number	Designation	Suitable for
81.25432-0543	USB port and AUX-IN	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.25460-5032	Cable harness, cab AUX-IN, left-hand and right-hand-drive vehicles	
81.28104-6061	HSD connecting cable, left-hand-drive vehicle	
81.28104-6062	HSD connecting cable, right-hand-drive vehicle	
81.25890-7888	MAN Genuine Software

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

4

### Hands-free Bluetooth functionality Basic (one mobile phone)

Allows legally compliant use of mobile devices while driving. Connection of one mobile phone to MMT via Bluetooth

- Phone calls can be made conveniently and in perfect voice quality using the integrated Bluetooth hands-free system in the vehicle.
- A total of up to ten phones can be paired and thus automatically connected upon detection.
- Access to telephone data such as phonebook, call lists, text messages and functions (making calls, reading text messages, etc.) via MMT.

#### **!** Note

The microphone cover must be replaced by a microphone. Connecting cables must be present in the vehicle for this purpose, with exceptions in the production period 08/2016 - 02/2017 and for selected vehicle types, depending on their design. If connecting cables are not available, retrofit the item numbers below.

Item number	Designation	Suitable for
81.25890-7883	MAN Genuine Software	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.25890-7676	MAN Genuine Software	
81.28201-0047	Microphone	
81.25459-5704	Connecting cable MMT_2 to A-pillar	
81.25459-5550	Connecting cable A-pillar to roof

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

### Hands-free Bluetooth functionality Comfort (two mobile phones)

Allows legally compliant use of mobile devices while driving. Two mobile phones can be connected simultaneously via Bluetooth.

- Option of pairing two mobile phones with MMT at the same time. This makes it possible, among other things, to use a business and a private mobile phone at the same time.
- Phone calls can be made conveniently and in perfect voice quality using the integrated Bluetooth hands-free system in the vehicle.
- A total of up to ten phones can be paired and thus automatically connected upon detection.
- Access to telephone data such as phonebook, call lists, text messages and functions (making calls, reading text messages, etc.) via MMT.

#### ! Note

The microphone cover must be replaced by a microphone. Connecting cables must be present in the vehicle for this purpose, with exceptions in the production period 08/2016 – 02/2017 and for selected vehicle types, depending on their design. ## Radio MMT\_2 Advanced additional functions (for vehicles from MY 2017 to MY 2019)

6

- Connection of a storage medium via the USB port or SD card slot
- Decoding of all common video formats
- Control of video playback via MMT and/or the multifunction steering wheel
- Video output on the MMT seven-inch colour display
- Sound output on the vehicle's loudspeaker system
- Video function is available only when the vehicle is stationary.
- The advantages of the integrated display and high-quality speaker equipment (including the optional sound system) tailored to the driver's cab can be exploited.

### **Note**

Prerequisite: USB port/AUX-IN connection

Item number	Designation	Suitable for
81.25890-7880	MAN Genuine Software	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019

# INFOTAINMENT

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

### Camera preparation

- Preparation for connecting one or two cameras
- The image from the camera is shown on the MAN Media Truck Advanced seven-inch colour display.
- Depending on the variant, activation of camera and switchover between the cameras takes place either automatically, for example when reverse gear is engaged, and/or manually, directly on the radio.
- Enhanced safety and damage prevention when reversing/manoeuvring thanks to the display of the area behind the vehicle. Automatic switchover when reverse gear is engaged provides additional comfort and relieves the driver's workload.

7

Item number	Designation	Suitable for
<b>One camera:</b>		
81.28104-6063	HSD cable, camera, left-hand-drive vehicle	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.28104-6064	HSD cable, camera, right-hand-drive vehicle	
<b>Two cameras:</b>		
81.28104-6065	HSD cable, camera, left-hand-drive vehicle	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.28104-6066	HSD cable, camera, right-hand-drive vehicle	

### MAN Genuine Software

Please also select the appropriate variant:

Item number	Designation	Suitable for
<b>One camera:</b>		
81.25890-7876	Camera activation via analogue video input (one camera)	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.25890-7878	Camera activation with rear-view camera (activation via reverse gear)	
<b>Two cameras:</b>		
81.25890-7877	Camera activation via analogue video input (two cameras)	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.25890-7879	Camera activation with rear-view camera (activation via reverse gear) and additional camera (activation via button)	

# INFOTAINMENT

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

8

### Voice control

This convenience function enables various functions of the new MMT to be operated by voice input.

- Input of navigation destination using one-shot voice control
- Dialling phone book contacts
- Accepting/making calls
- Simple and fast activation of the voice control function using the multifunction steering wheel.

The driver's attention remains on the road, since there are practically no distractions caused by the driver having to look away.

#### **Note**

The multifunction steering wheel (MFL) and a microphone are prerequisites.

Item number	Designation
81.25890-7881	MAN Genuine Software

Suitable for
TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019

9

### SmartLink

MAN SmartLink allows the available apps on a smartphone/tablet to be used/operated via MMT Advanced built into the vehicle.

- After successful connection, the apps supported by MAN SmartLink can be operated both by touching the MMT display and by pressing the buttons on the multifunction steering wheel.
- Apps shown on the high-resolution, easy-to-read seven-inch display
- Android and iOS operating systems are supported.

#### **Note**

Only for vehicles with instrumentation software version (at least R38) and MMT software version (at least R57). The multifunction steering wheel (MFL) and a USB port/AUX-IN connection are also required.

Item number	Designation
81.25890-7880	MAN Genuine Software

Suitable for
TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019

# INFOTAINMENT

## Radio MMT\_2 Advanced additional functions

(for vehicles from MY 2017 to MY 2019)

### Navigation

Truck-specific satellite navigation possible depending on deployment of vehicle. Including map material for one region and annual update of the map material (plus labour costs) up to 2025.

#### **!** Note

As prerequisite, a GPS antenna must be present. Please enquire about our 3G/GPS combined adhesive antenna or LTE/GNSS combined adhesive antenna.

10

#### **→** Further information

##### Navigation micro SD cards for Radio MAN Media Truck MMT\_2

The map material for the navigation is available to download via the MAN-cats III system. Further information can be found in a quick guide under Technical Information in MAN-cats.

We recommend that you download the latest versions of the available maps and save them locally (e.g. on your laptop) so that they are available at short notice if required. You will be notified of new map versions via "MAN-cats III Release Notes".

The automotive SD card in MAN design for storing the map material can be ordered with the following MAN item number:

Item number	Designation	Suitable for
07.98703-1008	Navigation SD card 32 GB	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019

#### MAN Genuine Software

Navigation SD card – software packages for regional activation:

Item number	Designation	Suitable for
81.25890-7868	MMT_2 storage medium with navigation map Europe	TGL and TGM models with MMT_2 from Euro 6 MY 2017 to MY 2019; TGS and TGX models with MMT_2 from MY 2017 to MY 2019
81.25890-7871	MMT_2 storage medium with navigation map Oceania	
81.25890-7870	MMT_2 storage medium with navigation map Middle East	
81.25890-7869	MMT_2 storage medium with navigation map South America	

# INFOTAINMENT

## Radio MMT\_3 Advanced additional functions

(for vehicles from MY 2020)

For the latest generation of MMT from model year 2020, customers can also optionally receive available additional functions according to their needs and requirements. The range will be gradually expanded in the future.

### Camera preparation

- Preparation for connecting one or two cameras
- The image of the camera is shown on the MAN Media Truck Advanced seven-inch colour display.
- Depending on the variant, activation of camera and switchover between the cameras takes place either automatically, for example when reverse gear is engaged, and/or manually, directly on the radio.
- Enhanced safety and damage prevention when reversing/manoeuvring thanks to the display of the area behind the vehicle. Automatic switchover when reverse gear is engaged provides additional comfort and relieves the driver's workload.

#### ! Note

Vehicle SW version 4.2. is a prerequisite for activation via pin. Camera activation on the MMT3 for the CAM1 input takes place at CVM2 pin B/9. Activation via button requires a camera switchover button. If no camera switchover button is present it must be retrofitted. Further information can be obtained from your MAN service outlet or the MAN Service Portal. The camera(s) are connected as per the MANTED® guideline (MAN technical data and Guide to Fitting Bodies).

HSD cables		
Item numbers	Designation	Suitable for
81.25449-5041	HSD cable, two cameras in central electrical system (2x 1 m)	TGL, TGM, TGS and TGX models with MMT_3 from MY 2020
81.25449-5061	HSD cable, one camera in central electrical system (1x 1 m)	TGL, TGM, TGS and TGX models with MMT_3 from MY 2020

Camera keyboard		
Item number	Designation	Suitable for
81.25449-5090	Cable set for camera button	MMT_3 Advanced Basic from MY 2020
81.25503-6977	Camera button	MMT_3 Advanced Basic from MY 2020

### MAN Genuine Software

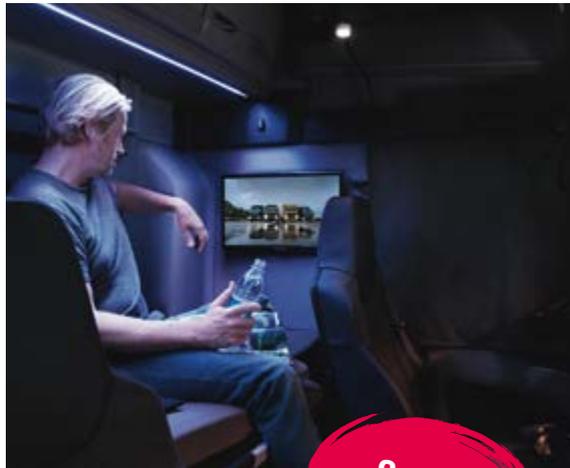

Please also select the appropriate variant:

Item number	Designation	Suitable for
<b>One camera:</b>		
81.25891-0365	Camera activation via button or pin	TGL, TGM, TGS and TGX models with MMT_3 from MY 2020
81.25891-0367	Camera activation via reverse gear	
<b>Two cameras:</b>		
81.25891-0364	Camera activation CAM1 (activation via button or pin), CAM2 (activation via reverse gear)	TGL, TGM, TGS and TGX models with MMT_3 from MY 2020
81.25891-0366	Camera activation CAM1 (activation via button or pin), CAM2 (activation via button)	

# INFOTAINMENT

## Television, 22" with assembly kit

At resting areas, the nights are long – and often boring as well. With the MAN Genuine television, you won't want for entertainment and will be able to enjoy your rest periods in the vehicle with films in top-class HD quality. Use it with the DVB-T antenna or Triple Tuner for digital TV reception, or simply play your own films using the integrated DVD player that supports all conventional formats. Relaxation has never been better.

### Properties

22-inch television with HD quality, in a modern high-gloss design

Special internal architecture protects against impact

Integrated DVD player

DVB-T antenna and Triple Tuner for digital TV reception, even when abroad in Europe

Bluetooth interface for wireless audio transmission

Pre-programmed list of channels, available immediately

Very large viewing angle: 178° horizontal and vertical

Energy-saving during operation and when on standby

### **!** Note

Ask your MAN service outlet for detailed information and the parts required for assembly. Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
U1.28210-6034	Television, 22-inch*	TGX from MY 2020

\*The item number does not contain any assembly parts. These must be ordered separately.

# INFOTAINMENT

## Bluetooth mobile communications adapter

The Bluetooth adapter is inserted instead of the charging tray. This enables considerably more mobile phone types to be connected with the mobile phone preparation in the vehicle via the Bluetooth interface.

### Properties

For the electrical preparation for mobile phone 350TI or 350TT

### ➔ Further information

Use the compatibility list in the ► [MAN Service Portal](#) to check whether your mobile phone is compatible with the code 350TO and with the codes 350TI, 350TT extended to Bluetooth.

Item number	Designation	Suitable for
81.28215-0134	Bluetooth mobile communications adapter	TGL and TGM Euro 5; TGS and TGX until MY end of 2009

## ISO DIN shaft

For mounting an additional ISO DIN device (e.g. radio, tachograph, CB radio set, etc.) in the front upper luggage rack if the existing ISO DIN slots are not sufficient.

Item number	Designation	Suitable for
81.63903-0438	ISO DIN shaft	TGL and TGM with C cab
81.63903-0439	Base frame	
06.07213-2310	Lens head screw (two units required)	
06.07219-0064	Cheese-head screw (four units required)	

# INFOTAINMENT

## 3G/GPS combi-bonding-antenna

Universal receiving antenna for GPS satellite signals for use in, for example, telematics fleet management systems, navigation systems, traffic guidance systems or vehicle positioning systems if no roof antenna is fitted. In combination with flat cellular telephone antenna.

### Properties

Dimensions: 100 mm x 66 mm x 21 mm

Cable length: 3,000 mm

#### Connection

GPS: FAKRA female, Code C

CELLULAR: FAKRA female, Code D

### Item number

U1.28205-6003

### Designation

3G/GPS combi-bonding-antenna

### Suitable for

TGL, TGM, TGS and TGX up to MY 2019

## LTE/GNSS combi-bonding-antenna

Universal self-adhesive combined antenna for use with the 2G (GSM), 3G (UMTS/HSPA+) and 4G (LTE) mobile phone standards, as well as GPS, Galileo and Glonass GNSS position satellite systems. This antenna has been optimised and tested for operation with the RIO Box (TBM3).

### Properties

Dimensions: 202 mm x 25 mm x 12.5 mm

Cable length: 4,000 mm

Weight: 120 g

Resistance: 10 kΩ

#### Connection

GPS: FAKRA female, Code C

CELLULAR: FAKRA female, Code D

The antenna can also be used for compatible telematics applications such as telematics fleet management systems, navigation systems, traffic management systems and vehicle positioning applications if a corresponding roof antenna has not been or cannot be fitted. Its flexible design makes this antenna suitable for fitting on the windscreen.

### Item number

U1.28205-6018

### Designation

LTE/GNSS combi-bonding-antenna

### Suitable for

TGL, TGM, TGS and TGX up to MY 2019

# STYLE

## Even more individual and genuine.

You want to add style to your truck's exterior? This is now possible with our products for enhancing style. We offer additional lamps, lights, interior equipment options and other stylish and useful products so that you can customise the look of your truck.

# STYLE

## Mirror cap cover

A very special highlight to enhance the MAN TGX and give it an individual appearance. The mirror cap impresses with its carbon look, exclusive red accents and the MAN Lion. The mirror caps must be ordered separately for the right and left sides.

Ideal as an overall combination: mirror cap cover, key application, bumper application and radiator grille design strip.

Item number	Designation	Suitable for
U1.63732-0000	Mirror cap cover, left	TGX, TGS from MY 2020
U1.63732-0001	Mirror cap cover, right	TGX, TGS from MY 2020

## Bumper application

Trim applications for the bumper in carbon look and with red accent stripes create an elegant appearance. The bumper application must be ordered separately for the right and left sides.

Ideal as an overall combination: mirror cap cover, key application, bumper application and radiator grille design strip.

### **Note**

Application is permitted only on painted surfaces.

Item number	Designation	Suitable for
U1.41614-0005	Aerolip trim, left	TGX from MY 2020 with plastic bumper
U1.41614-0006	Aerolip trim, right	TGX from MY 2020 with plastic bumper

# STYLE

## Key application

The key design can be enhanced very easily with the key application. Grabbing the key becomes a visual highlight – with carbon look, red accent lines, MAN logo and MAN Lion.

Ideal as an overall combination: mirror cap cover, key application, bumper application and radiator grille design strip.

Item number	Designation	Suitable for
U1.97870-0005	Key sticker (1 pc)	Keys for vehicles from MY 2020

## Design strips for radiator grille

The red design strips accentuate the radiator grille and create an exclusive, striking look.

Properties
3 custom-fit design strips
Installation instructions and template

### **!** Note

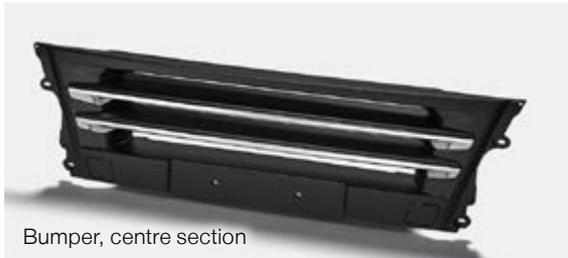

The retrofit is suitable both for vehicles with an entirely black radiator grille and for vehicles with chrome package.

Item number	Designation	Suitable for
U1.41614-6000	Set of design strips for radiator grille	TGX from MY 2020 with wide cab

# STYLE

## Chrome application for bumper centre section

The slightly upwardly angled blade profile of the slats directs the cooling air specifically to the hotter radiator upper areas and ensures an increased cooling output.

Item number	Designation	Suitable for
81.41610-6971	Bumper, middle section, TGX	TGX from Euro 6 to MY 2019
81.41614-0085	Air duct, left	
81.41614-0086	Air duct, right	
81.41614-6011	Step, TGX	TGS from Euro 6 to MY 2019
81.41610-6956	Bumper, middle section, TGS	
81.41614-0087	Air duct, left	
81.41614-0088	Air duct, right	TGX from MY 2020 with GX, GM,GN cab
81.41614-6012	Step, TGS	
81.41614-6084	Radiator grille assembly, 880 LH, chrome, three-part	
81.41614-6083	Radiator grille assembly, 640 LH, chrome, one-piece	TGM, TGS from MY 2020 with TM, TN, NN cab

# STYLE

## TGE step

The black steps with their exclusively designed plastic surfaces make for an impressive look. Available in two versions, they are a perfect fit for vehicles with a short or long wheelbase. In addition to the visual benefits, the steps protect the vehicle from damage to the sides. Available individually, suitable for the right or left side.

### Properties

Material: Aluminium with plastic treads

With general operating permit (ABE)

Including all parts necessary for mounting (brackets, screws)

### **!** Note

Fitting by a MAN service outlet is recommended.

Item number	Designation	Suitable for
U1.73610-6004	Step, L3, left	TGE with short wheelbase
U1.73610-6005	Step, L3, right	
U1.73610-6007	Step, L4/L5, left	TGE with medium/long wheelbase
U1.73610-6008	Step, L4/L5, right

65.45903-0008	Wheel trim, black/chrome gloss with emblem	

# STYLE

## Lockable wheel bolts

Use this mechanical system to prevent wheel theft. One wheel bolt per wheel is replaced with a version with a special head in the same manner for all wheels. This requires an adapter that is specific to the vehicle.

### Properties

Set consists of 4 wheel bolts, 4 cover caps and adapter

### **Note**

Rims and wheel bolts are coordinated to one another in terms of design. For every conversion to other rims, the relevant associated wheel bolts with the correct length and dome shape must be used. Secure fit of the wheels and the functioning of the brake system depends on this.

Item number	Designation	Suitable for
65.45506-0000	Wheel bolts, lockable	TGE

## Wheel nut indicator

Every truck driver must make sure before starting a journey that the vehicle tyres are in good condition. The wheel nut indicator makes this task much easier. It is possible to see at a glance whether the wheel nuts are properly secure.

Item number	Designation	Suitable for
81.45945-0016	Wheel nut indicator, yellow, a/f 32	Wheel nut, wrench width 32mm
81.45945-0018	Wheel nut indicator, yellow, a/f 30	Wheel nut, wrench width 30mm

# STYLE

## Valve extension

Valve extensions make it easier to access the necessary air pressure control without removing the wheel trims. Ideal air pressure is important, as it increases the service life of the tyre and reduces fuel consumption. Accidents and unnecessary downtimes can be avoided.

### Properties

with support tube

Rigid, plastic

White rod, black cap

Item number	Designation
1 81.45905-6039	Valve extension, effective length 53.5 mm
81.45905-6040	Valve extension, effective length 77.5 mm
81.45905-6042	Valve extension, effective length 107.5 mm
81.45905-6043	Valve extension, effective length 132.5 mm
81.45905-6044	Valve extension, effective length 152.5 mm

### Properties

Bendable, plastic (PA tube)

Item number	Designation
2 81.45905-0204	Valve extension, effective length 135 mm, bent 45°/90°
81.45905-0213	Valve extension, effective length 160 mm
81.45905-0205	Valve extension, effective length 183 mm
81.45905-0215	Valve extension, effective length 300 mm
81.45905-0217	Valve extension, effective length 310 mm, bent 90°
81.45905-0214	Valve extension, effective length 315 mm

## LED door projector

A special highlight: with MAN Genuine LED door projectors, boarding and alighting become unique experiences. When the door is opened, the MAN Lion or optionally the MAN logo is automatically projected onto the road in outstanding quality. Thanks to their simple plug & play installation, MAN Genuine door projectors can be fitted in any truck with integrated entry lighting within minutes.

### Properties

24 V/2 W

The set includes two projections (MAN Lion and MAN logo).

### **!** Note

In all truck models from model year 2020 onwards, fitting the projector requires only mechanical measures.

Item number	Designation	Suitable for
U1.25203-0000	LED door projector set	TGL, TGM, TGS and TGX where door entry lighting is already fitted.

# STYLE

## Design sun visor, aerodynamically optimised

The aerodynamically optimised sun visor is made of transparent, dark-grey tinted plastic and is mounted in front of the windscreen. It improves driving and road safety by reducing the dazzle effect caused by sunlight.

The exclusive design is a visual statement that enhances the vehicle's modern premium appearance.

The aerodynamically optimised design ensures that the air resistance with the sun visor fitted is approximately the same as without the sun visor, thus avoiding negative impacts on fuel consumption.

### Properties

---

High-quality special plastic (PMMA) with high impact strength, hardness, scratch resistance and light and weather resistance

---

Aerodynamically optimised thus no negative impacts on fuel consumption

---

### **!** Note

Installation varies depending on the vehicle equipment (e.g. with a roof light bar). Ask your MAN service outlet for detailed information and the parts required for assembly. Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
81.63701-6056	Design sun visor, aerodynamically optimised	TG with GX cab
81.63701-6061	Design sun visor TG-GM, aerodynamically optimised	TG with GX cab from MY 2020

## Exterior styling package

Inspire yourself and others – every day and on every trip. The MAN Genuine exterior styling package offers you a wide range of options for styling and refining the exterior look of your truck.

An exclusive design:

- Strengthens the external perception of your company
- Creates visible added value and fills drivers and hauliers with pride
- Shows a high level of appreciation to the driver, who will repay this with performance

Drive an MAN that is unmistakably yours.

**All scopes are part of the MAN basic homologation, EC Approval (CoC). Please note national admission requirements!**

1

### Roof light bar

MAN Genuine roof light bars are made to fit the shape of your cab and can be fitted with four additional lights, depending on the model. With an individual look, they provide better illumination of the road and the work area in front of the vehicle.

#### Properties

Light bar made of polished stainless steel

70 mm diameter

Includes wiring and retaining device for four lights

LED main beam headlights optionally available (round or square shape)

#### **Note**

Further information on the item numbers suitable for your model can be obtained from your MAN service outlet. Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
U1.62980-6015	Roof light bar*	TGX GM (XLX)
U1.62980-6014	Roof light bar*	TGX GX from MY 2020
U1.62980-6016	Roof light bar*	TGX GX from MY 2020 with individual sun visor
U1.62980-6017	Roof light bar*	TG NN/TN/DN
U1.62980-6020	Roof light bar*	TGS TM
U1.62980-6019	Roof light bar*	TGX GN
U1.62980-6024	Roof light bar*	TGX GM with design sun visor, aerodynamically optimised
U1.25101-6004	LED main beam headlight (round), diameter 232 mm	MAN roof light bar
U1.25101-6005	Assembly main beam headlight (square)	MAN roof light bar

\*The item number does not contain any assembly parts. These must be ordered separately.

# STYLE

## Exterior styling package

### Electrical interface for the auxiliary headlights

The MAN Genuine electrical interface enables connection of up to four auxiliary LED or halogen main beam headlights up to 70 W. Pressing this button switches the main beam headlights function from the main headlights to the auxiliary main beam headlights.

#### Properties

Separate retrofitting set for simpler assembly
With plug & play connector on MAN roof light bar
The function requires an additional function parameter.

Item number	Designation	Suitable for
81.25449-5025	Retrofit cable harness auxiliary head lamps*	All left-hand-drive TG models from MY 2020
81.25449-5024	Retrofit cable harness auxiliary head lamps*	All right-hand-drive TG models from MY 2020
81.25503-6283	Push button auxiliary head lamp roof*	All TG models from MY 2020

\*The item number does not contain any assembly parts. These must be ordered separately.

### Front and side bars

Attractive and useful at the same time: MAN Genuine front and side bars offer additional protection for the lower front and side sections. They also impress with their durability and precise fit.

#### Properties

Front and side bars made of polished stainless steel
60 mm diameter

#### ! Note

In order to avoid overheating on the exhaust sensor or discoloration of the side bracket, a heat shield must be used. This is listed in the overview of the necessary assembly parts.

#### ! Note

Further information on the item numbers suitable for your model can be obtained from your MAN service outlet. Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
U1.41650-6005	Front bar	TGX until MY 2019
U1.41650-6001	Front bar	TGX from MY 2020
U1.41673-6008*	Side bar	TGX 3600 mm until MY 2019
U1.41673-6010*	Side bar	TGX 3600 from MY 2020

\*The item number does not contain any assembly parts. These must be ordered separately.

## LED rear lights

High-quality, attractive design. Efficient LED technology reduces energy consumption and saves approx. 35 litres of diesel per vehicle per year. The MAN Genuine LED rear lights are available for all MAN trucks in the TG series. Separate, special versions with a cable connection are available for vehicles with a liftgate.

### ! Note

MAN Genuine LED rear lights can only be fitted on vehicles with central on-board computers version E7.4 and later. Conversions on vehicles with bulb rear lights require updated function parameters.

### → Further information

Further details can be found under Repair and Maintenance/Service Information ► [TI 566602](#)

Item number	Designation	Suitable for
81.25225-6576	LED rear light, right, with plug	TGL, TGM, TGS and TGX up to MY 2019 with on-board computer from version E7.4
81.25225-6580	LED rear light, right, with plug, with reversing warning system

## Side turn indicator light

The white side turn indicator light is an alternative to the standard orange side turn indicator light. The white turn indicator light emits a brighter light, giving the truck a special look and individual lighting characteristics. From trucks of MY 2020 onwards, particularly attractive LED side turn indicator lights with the MAN logo are obtainable.

Side turn indicator light, white

LED side turn indicator light with MAN branding

### ! Note

When converting from light bulb to LED, an additional data file "Turn signal/turn signal switch (LED)" is required.

Item number	Designation	Suitable for
81.25320-6136	Side turn indicator light, MAN, right	TGL, TGM from MY 2020 with TM or TN cab; TGS, TGX from MY 2020
81.25320-6135	Side turn indicator light, MAN, left	
81.25320-6130	Side turn indicator light, white	TGS, TGX

## LED clearance lamp

The light intensity of LEDs ensures particularly good visibility, providing an impressive, state-of-the-art appearance. LEDs also offer lower power consumption and a significantly longer service life than bulbs.

81.25260-6149 LED contour light, white

### Properties

Service life: up to 10,000 hours

Operating voltage: 24 V at 0.85 W

### ! Note

Mounting frames corresponding to the roof design must also be ordered.

Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
81.25260-6149	Contour light, LED, white	TGL, TGM, TGS, TGX
U1.25260-0000	Contour light, LED, yellow	Various applications, such as exterior styling package with ambient lighting

## Compressed-air horn

Visibly audible with MAN Genuine compressed-air horns. The compressed-air horn not only adds to the look of your truck but is also an acoustic signal in hazardous situations.

### Properties

Frequency 180 or 150 Hz

Operating pressure 600-1,200 kPa

Volume at nominal pressure 600 kPa at 2 m:  
approx. 115 dB (A)

### **!** Note

You can obtain a detailed list of the parts required for assembly from your MAN service outlet. Fitting by an MAN service outlet is recommended. Please also note the applicable road traffic regulations of your country.

Item number	Designation	Suitable for
81.25301-6078	Compressed-air horn 180*	TGL, TGM, TGS, TGX up to MY 2019
81.25301-6077	Compressed-air horn 150*	

\*The item number does not contain any assembly parts. These must be ordered separately.

## Stainless steel steps

Another element that creates greater individualisation and enhances the appearance of the vehicle with high-gloss polished stainless steel.

### Properties

A set of steps comprises 3 stainless steel steps.

Item number	Designation	Suitable for
U1.61511-6001	Set of steps (3 steps), left	TGX up to MY 2019, TGA with XL, XXL cab
U1.61511-6000	Set of steps (3 steps), right	TGX up to MY 2019, TGA with XL, XXL cab

# STYLE

## Decorative films

Use MAN Genuine decorative films to turn your vehicle into an eye-catcher!

### ! Note

Decorative films may start to show signs of wear and ageing, particularly if exposed to direct sunlight (after one to three years, or even within a year in very hot climate zones). If the decorative film remains on the vehicle for an extended period of time, there may be visual differences between the painted area covered by the decorative film and the area not protected by film.

## Lion Face decorative film

Put your MAN and yourself in the spotlight with an individual design. The MAN lion symbol makes a strong impression and enhances the vehicle's appearance.

The opposite cab side can be ordered separately.

### ! Note

For cabs with black paintwork (RAL 9017, 9004, 7021, 5004 or 9523), the respective version with the suffix "black" is best suited, due to the dark colour of the decorative film. For all other cab paintwork colours, please use the decorative film with the suffix "colourful".

Item number	Designation	Suitable for
U1.97812-6025	Decorative film Lion Face black left	From MY 2020, cab GN, GM, GX in black shades

# DRIVER ASSISTANCE SYSTEMS

## Intelligent support on the road.

The intelligent, retrofittable MAN Genuine driver assistance systems support you in your day-to-day work. Whether we're talking about efficiency, safety or prevention, MAN Genuine driver assistance systems provide more driving comfort and can help avoid or avoid prevent critical situations. This noticeably relieves your workload and there is a significant reduction in the risk of downtimes.

# DRIVER ASSISTANCE SYSTEMS

## Rear-view/camera system

Due to the design and size of trucks, visibility in their immediate vicinity is often poor. These blind spots are often the cause of serious damage, especially when manoeuvring. The MAN Genuine rear-view/camera system can help to avoid these damages. With this system, drivers can see what's behind them just as well as they can see what's in front of them. It gives them an overview of the entire vehicle situation, including side views. The vehicle display shows high-contrast super-sharp images with the option of showing reversing guiding lines if required.

Regardless of whether truck or TGE, solo truck, with trailer or semitrailer: our complete kits and the flexible modular principle enable a vast range of applications.

Can be supplied with an external monitor or for viewing on the MAN Media Truck radio or the MAN Media Van radio with up to four cameras. The robust design is also suitable for extreme conditions.

Camera ready for use even during snowfall due to shutter housing.

"Eyelid" effect when opening the lens cover.

Open camera free of snow after opening the lens cover.

# DRIVER ASSISTANCE SYSTEMS

## Rear-view/camera system

### Rear-view/camera system

1

#### Properties

Can be used as rear-view or forward-view camera

Vibration-resistant, protected against dust and water

ADR tested

#### ! Note

Also available in the set:

- Adapter cables (for connection to MMT/MMV)
- Adapter cables with ECU (for up to four cameras on MMT)
- Seven-inch external monitor (for up to four cameras)
- Various lengths of adapter cable
- Connecting cables for trailers and semitrailers
- Camera shutter housing to protect the camera lens from dirt

Connection to the MAN radios MMT\_2, MMT\_3 and MMV always requires the necessary camera preparation. Further information for any necessary retrofitting of the respective camera preparation can be found in the [▶ MAN Service Portal/Infotainment](#). Fitting by an MAN service outlet is recommended.

#### ➔ Further information

For simplified product selection, MAN offers pre-assembled complete sets for a single camera. Further information on available complete sets per vehicle can be found in your MAN service outlet.

- Connecting cables for trailers and semitrailers
- Tank/pump unit 24V for camera cleaning nozzle

Connection to the MAN radios MMT\_2, MMT\_3 and MMV always requires the necessary camera preparation. Further information for any necessary retrofitting of the respective camera preparation can be found in the [▶ MAN Service Portal/Infotainment](#). Fitting by an MAN service outlet is recommended.

#### **Further information**

For simplified product selection, MAN offers pre-assembled complete sets for a single camera. Further information on available complete sets per vehicle can be found in your MAN service outlet.

Item number	Designation	Suitable for
	Rear-view/camera system plus, modular sets	TGL, TGM, TGS, TGX; TGE

# DRIVER ASSISTANCE SYSTEMS

## Side camera system (SCS)

Eliminate the blind spot! It happens every day: pedestrians and cyclists unconsciously put themselves at risk when they are in the blind spot of trucks at crossings. Time and again, avoidable accidents happen. The best conceivable investment: a side camera system. Thanks to this side camera system, the driver is able to detect when people are in the blind spot. A camera mounted on the truck on the co-driver's side ensures optimum visibility of the area that was previously the blind spot by means of a 150° wide-angle lens. The system is activated either automatically when the turn indicator is set or manually by a switch.

### ! Note

Two variants are available:

- Side camera system with image on separate seven-inch monitor at the level of the A-pillar (co-driver's side). The driver has the kerb mirror, the wide-angle mirror and the camera monitor in the same field of vision.
- Side camera system with image shown on the MMT radio seven-inch display

Prerequisite for showing the image on MMT radio:

- MAN Media Truck Advanced radio 12 V with seven-inch display.
- MAN camera view preparation for rear-view camera and camera 2

Fitting by an MAN service outlet is recommended.

### → Further information

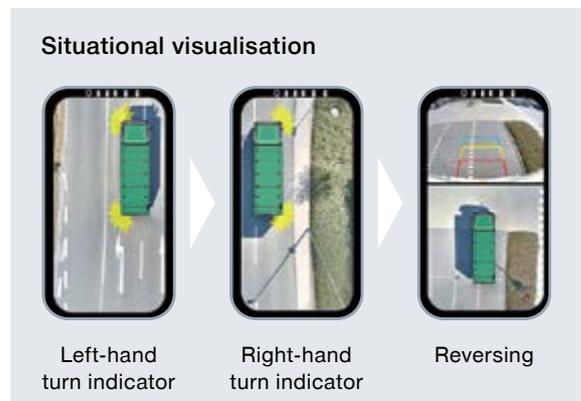

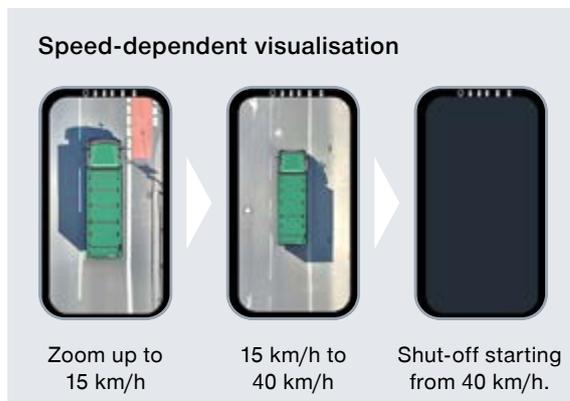

The MAN Genuine side camera system is not subsidised as a turning assistant (in accordance with the BMVI guidelines). However, as a “camera monitor system”, a de minimis subsidy under 1.3 can be applied for as supplementary safety equipment. You can obtain a detailed list of the parts required for assembly from your MAN service outlet.

Item number	Designation	Suitable for
81.27604-6003	Retrofit set with external monitor	For all TGL, TGM, TGS and TGX until MY 2019
81.27604-6004	Retrofit set with display on MMT2	
U1.28210-6035	Retrofit set with display on MMT3	For all TGL, TGM, TGS and TGX from MY 2020
81.27604-6007	Retrofit set with external monitor	
U1.28210 6042	Camera distance adapter for narrow cabs TGL/TGM/TGS	For all TGL/TGM/TGS with narrow cab

# DRIVER ASSISTANCE SYSTEMS

## 360° BirdView camera system

The MAN Genuine 360° BirdView camera system is a powerful, HD-TVI detection system for the surrounding area. With its high-resolution 360° all-round view, MAN BirdView provides maximum visibility for difficult manoeuvres and ensures greater safety when turning off. Comprising four HD cameras with wide-angle lenses, the system delivers high-resolution imaging of the vehicle's surroundings from a bird's-eye perspective. This makes the surroundings of the vehicle environment entirely and seamlessly visible, including all blind spots.

### Properties

Images displayed on seven-inch monitor

1,280 x 720 pixel camera resolution

ADR tested

### **Note**

Vehicle prerequisite:

- Solo vehicle with fixed body (no trailer or semitrailer)
- Maximum vehicle length: 14 m
- Maximum vehicle width: 2.6 m
- Vehicle height (height of cameras): min. 1.5 m, max. 4 m
- Once it has been fitted and set up, the system has to be calibrated for its specific installation:
  - Calibration is carried out with the calibration set also offered by MAN.
  - The calibration software is supplied on the SD card included in the kit.
- For vehicles from MY 2020 onwards, the extended IO module-2 in flash variant 81.25806-7447 must be installed for signal pickups on the vehicle side.

Fitting by an MAN service outlet is recommended.

Video recorder optionally available: 1 channel, 128 GB SD memory card, 54 hours recording time, 24 V

Item number	Designation	Suitable for
U1.28210-6015	BirdView 360° camera system	TGL, TGM, TGS, TGX; All buses/coaches
U1.28210-6019	Calibration set	
U1.28210-6018	Video recorder	

# DRIVER ASSISTANCE SYSTEMS

## Video turn aid (VTA)

Every accident avoided is a win. Thanks to this camera system, the driver is able to detect when people or bicycle riders are in the blind spot. Unlike conventional blind spot solutions, this turning system reliably distinguishes between moving objects such as pedestrians or cyclists and static objects such as lampposts. The driver is thus only warned if there is an actual danger.

The video turn aid (VTA) is a stand-alone system for vehicles that do not yet have turn assist systems. If the vehicle already has a turn assist installed as standard, the side camera system (SCS) can be retrofitted.

### Properties

---

**3-In-1 solution** – Detection of moving objects, video image of the relevant area, active warning (visual and acoustic)

---

**Quick and easy installation** – all components of the camera are in a single housing

---

**Best image quality** – compact seven-inch monitor with optimal resolution at the level of the A-pillar (co-driver's side)

---

**Excellent image quality** – camera with infrared LEDs ensures high image quality, day and night

---

**For narrow cabs** – an optionally available distance adapter extends the field of vision to the area next to the body.

---

# DRIVER ASSISTANCE SYSTEMS

## Video turn aid (VTA)

### ! Note

The system detects moving objects that are moving at an angle of 0° (parallel to the vehicle and in the direction of travel of the vehicle) up to approx. 45° (beside the vehicle). Due to repetitive structures in the detection area (e.g. construction fences) or if the semitrailer moves into the detection zone when cornering, false triggering may occur. No bodies or similar objects may be located in the detection area. Please also observe the notes about setting up the camera.

Minimum vehicle equipment required for this:

For vehicles from MY 2020 onwards, the extended IO module-2 in flash variant 81.25806-7448 must be installed for signal pickups on the vehicle side.

### → Further information

The video turn aid (VTA) is only suitable for left-hand drive vehicles with the camera on the right side of the vehicle. The (VTA) is eligible for a subsidy as a turn assistant (in accordance with the BMVI guidelines); a corresponding general operating permit (ABE) is also available.

Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
81.27604-6005	VTA retrofit kit	For all TGL, TGM, TGS and TGX until MY 2019
81.27604-6006	VTA retrofit kit	For all TGL, TGM, TGS and TGX from MY 2020
U1.28210-6039	Camera distance adapter or TGX with extra-wide bodies > 2.5 m	For all TGL/TGM/TGS vehicles with narrow cabs or TGX with extra-wide bodies > 2.5 m
U1.28210-6041	Camera distance adapter extension	For all TGL/TGM/TGS with narrow cabs and over-wide bodies > 2.5 m

# DRIVER ASSISTANCE SYSTEMS

## Acoustic warning device upgrade kit GB

The externally-mounted speaker in the co-driver's area alerts pedestrians and cyclists in the vicinity to the turning manoeuvre with a 'white noise' acoustic warning signal and spoken warning "Caution vehicle is turning right/left".

The scope of delivery includes an A4 'Blind Spot' sticker for affixing on the vehicle.

### Properties

Alerts pedestrians and cyclists nearby to the turning manoeuvre when the turn indicator is actuated

Complies with London Direct Vision Standard (DVS)

Language English (cannot be changed)

Supplied without MAN-specific assembly/cable set or switch for night-time deactivation

The speaker can also optionally give a warning when reversing.

### **!** Note

The external speaker must be equipped with an additional switch for night-time deactivation between 11.30 p.m. and 7.00 a.m. Supplied without MAN-specific assembly/cable set or switch for night-time deactivation. Installation takes place using the two lugs, preferably under the cab on the co-driver's side. Please also note the information on the DVS in the Download area of the ► [MAN Service Portal](#)

Item number	Designation	Suitable for
K3.28102-6000	Acoustic warning device GB supplementary kit	For all TGL, TGM, TGS, TGX models

# DRIVER ASSISTANCE SYSTEMS

## Retrofit RIO Box/MAN Genuine telematics on-board module 3 (for vehicles up to MY 2019)

The third-generation MAN Genuine on-board telematics module (known as the RIO box) is the hardware installed in the vehicle for using digital services (MAN DigitalServices/RIO services). Thanks to the FMS (fleet management interface), the RIO Box is also suitable for older MAN models and vehicles from other truck manufacturers for managing a complete fleet of vehicles via a single logistics platform.

The RIO Box provides access to the RIO platform from which individual services from MAN, RIO and third parties can be booked.

It also handles the transmission (= mobile phone data modem and firewall) of a wide range of data, which is processed into profitable services on the RIO platform.

The RIO Box is ideal for customers who want to manage individual vehicles or a complete fleet (MAN and third-party vehicles) via a single platform with numerous online services.

The customer can book various services via the MAN Marketplace/RIO Marketplace, such as the free MAN Essentials/RIO Essentials service, which provides the customer with basic fleet administration and deployment analysis, or MAN ServiceCare (also a free service), which offers proactive maintenance management by the MAN service outlet and thus reduces the administrative burden for the customer. Available updates for module software/installed services or newly booked services are automatically downloaded and installed.

### Properties

---

Single-DIN slot format

---

Computing power designed for data transmission of future telematics and logistics functions

---

Internal memory 1 GB RAM

---

Permanent memory 8 GB flash memory

---

Data transfer rate: As of 08/2017: UMTS (up to 42 Mbit/s)

---

As of 05/2018: LTE (up to 150 Mbit/s)

---

Three separate partitions, each with its own operating system (Linux and Automotive Realtime System), for particularly high system stability and security

---

Supports FMS from version 1.0 and is therefore multi-brand capable.

---

### ➔ Further information

You can find a detailed list of supported vehicles and requirements for retrofitting in the retrofit instructions under MAN Service documentation in the ► [MAN Service Portal](#).

Item number	Designation	Suitable for
	Retrofit RIO Box/MAN Genuine telematics on-board module 3	TGL, TGM from Euro 6 models up to MY 2019; TGS from Euro 5 models up to MY 2019; TGX all models up to MY 2019; TGE upon request; Third-party brands with fleet management interface (starting from Version 1.0)

# DRIVER ASSISTANCE SYSTEMS

## MAN EfficientCruise® retrofit kit

The GPS-based cruise control recognises uphill and downhill gradients on the upcoming route using stored map material and then continually adjusts the vehicle's speed to the given conditions along the route. The system reduces the strain on the driver, is easy to use and makes for a harmonious driving experience while ensuring the highest degree of driving comfort.

The retrofit packages also offer security in the form of a short amortisation period.

Target group: Customers (especially second vehicle owners) who are active in long-haul transport with a high proportion of long-distance routes on motorways (in EU and neighbouring countries).

### **Note**

Vehicle prerequisites:

- The driver sets a desired speed of at least 60 km/h for cruise control or adaptive cruise control (ACC).
- The vehicle has GPS reception.
- The current on-board telematics module (TBM2) map material covers almost the entire European road network.
- The topographical data for the relevant roads is stored in the map material.

Item number	Designation	Suitable for
	MAN EfficientCruise® retrofit kit	TGS, TGX from MY 02/2015 to MY 2019 (For details, see the retrofit instructions in the ► <a href="#">MAN Service Portal</a> )

# DRIVER ASSISTANCE SYSTEMS

## Retrofit AttentionGuard

The MAN Genuine AttentionGuard is an attention assistant based on the principle of the Lane Guard System (LGS). It detects signs of reduced alertness of the driver at an early stage, and tells the driver to be more alert when driving using visual as well as acoustic signals.

### How it functions

- At speeds of 60 km/h and above, the system continuously evaluates various driving parameters (straying out of lane, steering behaviour, etc.) and draws conclusions about the driver's fitness for driving based on a defined evaluation algorithm.
- A warning is issued ten seconds after the last of five detected lane violations, at an interval of maximum three minutes in each case.

**Visual:** A message appears on the display for eight seconds.

**Acoustic:** A warning tone sounds over the loudspeakers at the driver's workplace.

- If there are intervals of more than 3 minutes between two instances of straying off a road lane and after issuing a warning, the counter is set back to 0.

As with the Lane Guard System (LGS), the function is guaranteed even when the vehicle is driven at night.

This reduces the probability of accidents due to reduced attention on the part of the driver. Active safety on monotonous sections of road is also increased, because one typical cause of accidents – unintentional departure from the lane – is prevented.

### ! Note

Vehicle prerequisite:

- Vehicle must be equipped with Lane Guard System (LGS).
- The system does not function if lane markings are missing or not detected.

Item number	Designation	Suitable for
81.25890-7985	MAN Genuine Software	TGS and TGX: <ul style="list-style-type: none"> <li>Euro 6 from MY February 2017 to MY 2019</li> <li>With LGS4 (function parameter set): 81.25890-3853 Configuration of Lane Guard System via PTM (Power Train Manager) and MFC (multi-functional camera)</li> <li>PTM Step 6 or successor step installed</li> </ul>

# TRANSPORT

**Transport goods safely and conveniently.**

## Trailer fixture

Expand the transport options of your MAN TGE with the MAN Genuine trailer fixture. Particularly practical: it can be unscrewed quickly and simply. If the EC type-approval numbers and trailer loads have already been entered in the registration documents, no separate approval is required for retrofitting such a trailer fixture.

Item number	Designation	Suitable for
65.42020-6007	Trailer fixture ball head (panel, combi, single tyres)	TGE, not with: PR-QT4
65.42020-0008	Trailer fixture ball head (box-type, combi, twin tyres)	
65.42020-6010	Trailer fixture ball head (platform body, single tyres)	
65.42020-6011	Trailer fixture ball head (platform body, twin tyres)	
65.42020-0006	Clutch ball	

### **!** Note

In addition, the appropriate MAN Genuine electrical installation kit for trailer couplings is required.

## Step for trailer fixture

The MAN Genuine step on the right can be used on all panel and combi van vehicles. It is attached to the trailer fixture and facilitates entry to the cargo space.

**!** Note Only in combination with: Trailer fixture

Item number	Designation	Suitable for
65.42902-0007	Step for trailer fixture	TGE

**!** Note If one of the following PR codes is configured, the ODIS measure code 7014A (65.25890-7014; step on the right of the rear – retrofit) is also required:

PR Code	Designation
7X2	Parking distance control at front and rear
8A8	Trailer assist system with parking distance control at front and rear
9X0	Parking distance control at front and rear with active side protection
9X1	Parking assist system with active side protection and parking distance control front and rear
9X2	Trailer assist system and parking distance control at front and rear with active side protection
9X3	Trailer assist system with parking assist, active side protection and parking distance control at front and rear

# TRANSPORT

## Trailer coupling

Increase your flexibility when it comes to attaching trailers to the TGE. In combination with the necessary detachable trailer fixture with ball head (Sales code: 630DC), a jaw coupling can be used as a swap coupling at the rear of the vehicle. With this changing system, the jaw coupling can be bolted onto the trailer bracket when the ball head has been removed. This makes it possible to pull various trailers with a TGE.

### Properties

Trailer load: 3500 kg

Drawbar load: 120 kg

### **!** Note

Only in combination with the preparation for trailer fixture with ball head as swap coupling (PR-1D2).

Item number	Designation	Suitable for
65.42030-0004	Jaw coupling	TGE, only with PR 1D2

# TRANSPORT

## Electrical installation kit (E-kit) for trailer fixtures

The MAN Genuine electrical installation kit (13-pin) for trailer fixtures ensures the electrical supply, thus enabling the safe operation of a trailer. Additional coding by means of a software package is necessary.

The retrofits listed below for vehicles without preparation are only valid for vehicles up to and including the date of manufacture CW33/2020.

1

### E-kit, 13-pin, vehicles with preparation

#### Properties

Number of pins: 13

Technical features: Also in combination with parking distance control (PDC)

Supports trailer stabilisation

For vehicles with trailer fixture preparation (1D7) ex works

Marketability: Not for the United States of America

**!** **Note:** With rear fog light switched off

Item number	Designation	Suitable for
65.25432-6001	E-kit, 13-pin, vehicles with preparation Due to the preparation, the standard control unit is used. This means that the E-kit is integrated into the CAN bus of the vehicle and supports, among other things, trailer stabilisation. The MAN Genuine electric installation kit is suitable for both right-hand-drive and left-hand-drive vehicles. The restrictions listed in the CoC/registration document must be taken into consideration. Cannot be used on the eTGE.	TGE, not for eTGE

**!** **Caution** Observe the restrictions and conditions of Volkswagen AG (e.g. car sales program).

# TRANSPORT

## Electrical installation kit (E-kit) for trailer fixtures

### E-kit, 13-pin, vehicles without preparation, short wheelbase

2

#### Properties

Number of pins: 13

Technical features: Also in combination with parking distance control (PDC)

Supports trailer stabilisation

For vehicles with 12-way fuse carrier under left seat box, short wheelbase

Marketability: Not for the United States of America

**!** **Note:** With rear fog light switched off

Item number	Designation	Suitable for
65.25432-6002	E-kit, 13-pin, vehicles without preparation, short wheelbase The use of the Genuine control unit ensures full integration into the CAN. This means that safety-related driver assistance systems, such as trailer stabilisation, are supported, thus ensuring the safe towing of trailers. Suitable for both right-hand-drive and left-hand-drive vehicles without preparation with short wheelbase. The restrictions listed in the CoC/registration document must be taken into consideration.	TGE, until KW33/2020, not for eTGE
65.25432-6002	E-kit, 13-pin, vehicles without preparation, short wheelbase The use of the Genuine control unit ensures full integration into the CAN. This means that safety-related driver assistance systems, such as trailer stabilisation, are supported, thus ensuring the safe towing of trailers. Suitable for both right-hand-drive and left-hand-drive vehicles without preparation with short wheelbase. The restrictions listed in the CoC/registration document must be taken into consideration.	TGE, from KW34/2020, not for eTGE

## Load security

Products for load securing offer solutions for almost all transport tasks. Vehicle occupants, cargo and other road users are thus optimally protected.

1

### Lashing straps truck

When securing your load, rely on the robust lashing straps, which are suitable for a variety of purposes. Select the ratchet, length, width and hook shape that suits you from the variants. Edge protection corners and matching anti-slip mats complete the offer.

The special highlight: all lashing straps are provided with a MAN branding.

#### Properties

##### Lashing straps for securing and lashing of freight according EN 12195-2

Models: 1-part or 2-parts	Maximum strap elongation <5 %
Width: 25 mm or 50 mm	Tested according EN 12195-2
Available lengths: 8 m or 10 m	Corrosion protection (ratchet) according GB/T-6461-2002
Hook form: Triangle wire hook or triangle wire hook with keeper	International labelling (protected inside)
Manufactured from high quality polyester (PES)	TÜV/GS tested
Lashing force >5 Tons	Temperature application range min./max.: -40 to +120 °C

#### Corner guards

Dimensions: 105 x 105 x 135 mm

#### Non-slip mats

Dimensions: 1.2 m x 10 cm x 8 mm

## Storage bag

The storage bags made of durable polyester are easily accessible on the rear wing doors of panel vans/combi vans. The storage bags can be used to store small materials such as light tools, safety vest(s), lashing straps, gloves etc. so they are ready to hand and neatly stored.

The removable storage bags with a carrying handle are ideally equipped for everyday use. They are fastened to the left and right rear leaf doors with turn locks below the rear window cutouts.

### Properties

Dimensions (width x height x depth) in mm: 450 x 350 x 140

Maximum load capacity: 4 kg

Colour: Black with light grey applications

Item number	Designation	Suitable for
65.66908-0000	Set of storage bags (left and right)	TGE, only for panel vans and combi vans

# TRANSPORT

## Stowage box on platform loading surface

The storage box mounted on the platform loading surface offers additional storage space for bulky or loose objects such as tools and snow chains. The items are not only neatly stored, but also protected from wind and weather. They can also be secured against theft with the help of a lock. Another advantage is that the storage box, which is firmly attached to the loading surface and installed directly next to the rear cab wall, takes up little space. This means that the remaining space can be used optimally for loads.

### Properties

Dimensions in mm (L x W x H): 666 x 1,700 x 656

Weight of storage box: 40 kg

Material: Frame (struts) in steel, walls in aluminium

Payload up to 200 kg

Lockable with separate lock and key

### ! Note

Additional parts such as screws and brackets are required for installation. Please observe the installation instructions.

### ➔ Further information

You can find the assembly instructions on the ► [MAN Service Portal](#). Fitting by an MAN service outlet is recommended.

Item number	Designation	Suitable for
65.63910-0004	Storage box	TGE, only for platform body
